SECTION I

GENERAL RULES & INSTRUCTIONS FOR THE GUIDANCE OF TENDERERS

- 1.0 Tenders are hereby invited on behalf of Punjab & Sind Bank - Zonal Office- Bhopal for the Interior furnishing works of BO: SHAHDOL (M.P.).

Contract documents consisting of the plans, complete specifications, the schedule of quantities of the various classes of work to be done and the set of conditions of contract to be complied with by the person/firm whose tenders may be accepted and which will also be found in the form of tenders, can be seen/purchased at The Competent Authority , Punjab & Sind Bank - Zonal Office- Bhopal between normal working hours of one day prior to the last day of submission of the tenders & except on Sundays & Bank holidays. The site for the work is available

- 2.0 Tenders, received through online mode only through the link <https://psb.eproc.in>, shall be accepted. The last date for submission of bid through online mode only is up to 04.12.2024 by 3.00 P.M. & will be opened on dated 04.12.2024 at 3.30 PM.
- 3.0 In case of two part tenders, dates of submission opening of the tenders & the part thereof along with the superscription on the packages should be as per specific instruction on the tender notice/ form.
- 4.0 Tenders are to be on the prescribed form which can be obtained from the office of The Competent Authority, Punjab & Sind Bank - Zonal Office- Bhopal.
- 5.0 The time allowed for the carrying out of the work will be 30 days from the date of issue of work order.
- 6.0 The Contractors should quote in figures as well as in words the rate, & amount tendered by them. The amount for each item should be worked out & the requisite totals given.
- 7.0 While a contractor signs a tender in an Indian language the percentage above or below & tendered amount & the total amount tendered should also be written in the same language. In the case of illiterate contractors the rates or the amounts tendered should be attested by a witness.
- 8.0 Issue of tender form will be stopped one day before the date fixed for the opening of tenders.
- 9.0 Earnest money, amounting to **Rs. 25000/- (Rupees Twenty Five Thousand only)**, in the form of Bank Draft drawn in favor of Punjab & Sind Bank -Bhopal. The earnest Money & Tender Fee can also be deposited through online mode in following account:-

A/c Details for Tender Fee & EMD

A/c Name:- Punjab & Sind Bank

A/c No. 80215040070003

IFSC Code:- PSIB0008021

- 10.0 The contractor, whose tender is accepted will be required to furnish by way of security deposit for the due fulfillment of his contract, such sum will amount:

a) 10.00% ISD with EMD

The Retention Amount shall be refunded to the contractor on completion subject to the following:

- i) Issue of Virtual Completion Certificate by the Architect/ Premises Dept.

- ii) Contractor's removal of his materials, equipment, labour force etc. from the site (excepting for a small presence required if any for the defect liability period & approved by the Bank.

Note:- No interest is allowed on Retention Money.

Tender received through sealed envelope in Hard Copy shall not be accepted.

- 11.0 The acceptance of a tender will rest with the Bank, The Bank reserves the right to accept or reject any or all the tenders received without the assignment of any reasons. All tenders in whom any of the prescribed conditions are not fulfilled or are incomplete in any respect are liable to be rejected.
- The bank reserves the right to accept the tender in full or in parts and that the tenderer shall have no claim for revision of rates or other conditions if the tender is accepted in parts.
- 12.0 Canvassing in connection with tender is strictly prohibited and the tenders submitted by the contractor who resorts to canvassing will be liable to rejection.
- 13.0 All item rates shall be quoted on the proper form of the tender alone.
- 14.0 An item rate tender containing percentage below/above will be summarily rejected. However, where a tenderer voluntarily offers a rebate for payment within a stipulated period, this may be considered.
- 15.0 On acceptance of tender, the name of the accredited representative(s) of the contractor who would be responsible for taking instructions from the Employer/Architect shall be communicated to the Employer.
- 16.0 Special Care should be taken to write the rates in figures as well as in words & the amounts in figures only, in such a way that interpretation is not possible. The total amount should be written both in figures & in words. In case of figures, the words "Rs" should be written before the figure of rupees & words "P" after the decimal figures, e.g. Rs.2.15p. & in case of words, the word "Rupees" should precede & the word "Paisa" should be written at the end, unless the rate is in whole rupees & followed by the words "Only", it should invariably be up to two decimal places. While quoting the rates in schedule of quantities, the word "Only" should be written closely following the amount & it should not be written in the next line.
- 17.0 The bank does not bind itself to accept the lowest or any tender and reserves to itself the right of accepting the whole or any part of the tender and the tenderer shall be bound to perform the same at the rate quoted.
- 18.0 **GST or any other tax may be mentioned clearly either inclusive or exclusive in respect of this contract & the Bank will not entertain any claim apart from this whatsoever.**
- 19.0 The contractor shall give a list of his relatives working with the bank along with their designations and addresses.
- 20.0 No employee of the Bank is allowed to work under or as a contractor for a period of two years after his retirement from Bank services, without the previous permission of the Bank. The contract is liable to be cancelled if either the contractor or any of his employees is found at any time to be such a person who had not obtained the permission of the Bank as aforesaid before submission of the tender or engagement in the contractor's service.
- 21.0 The tender for works shall remain open for acceptance for a period of 90 days from the date of opening of the tenders. If any tenderer withdraws his tender before the said period, then the bank shall be at liberty to forfeit Earnest Money paid along with the tender.
- 22.0 The tender for the work shall not be witnessed by a contractor or contractors who himself/themselves has/have tendered or who may and has/have tendered for the said work. Failure to observe this condition would render tenders of the contractors tendering as well as witnessing the tender liable to summary rejection.

- 23.0 It will be obligatory on the part of the tenderer to tender and sign the tender documents for all the component parts and that, after the work is awarded, he will have to enter in to an agreement, for each component with the competent authority in the bank.

The tenderer, apart from being a competent contractor must associate himself with the agencies of the appropriate class who are eligible for (i) Electrical (ii) Sanitary & water supply installations and (iii) Horticulture.

Signature of the Competent Authority,

SECTION II

GENERAL CONDITIONS OF CONTRACT

Except where provided for in the description of the individual items in the Schedule of Quantities & in the specifications & conditions laid down hereinafter & in the drawings, the work shall be carried as per standard specifications & under the directions of the Employer/Architects.

1. INTERPRETATION

In construing these conditions, the specifications, the schedule of quantities, tender & Agreement, the following words shall have the meaning herein assigned to them except where the subject of context otherwise requires :

- i) **Employer:** The term employer shall denote PUNJAB & SIND Bank with their head office, at NEW DELHI, & any of its employees or representative authorized to act on their behalf.
- ii) **Architects/Consultants:** The term Architects shall mean or in the event of his/their ceasing to be the Architects for the purpose of this contract such other person/s as the Employer shall nominate for the purpose. The architect with the approval of the Bank may engage a local Architect/ Consulting Engineer for supervision & co- ordination of the work at the site. He will be considered a representative of the Architect. The Bank may also engage a Project Management Consultant for the supervision of the work. He will be designated by the term PMC & work a s Employer's agent at the site.
- iii) **Contractor:** The term Contractor shall mean(name & address of the contractor) & his/their heirs, legal representatives assigns & successors.
- iv) **Site :** The site shall mean the site where the works are to be executed as shown within boundary on the Site Plan including any building & erections there on allotted by the Employer for the Contractor's use.
- v) **Site Engineer:** The Site Engineer may be appointed by the Bank. The Bank may also determine the number of Site Engineers & the supporting staff at site office to assist them & also whether the Site Engineer shall be temporary or permanent. As far as possible, the Site Engineer should assume charge of his post before the Contractor reports on site of work. Where more than one Site Engineer is appointed, one of them shall be designated as senior Site Engineer by the Premises Department & the other Site Engineers shall be reporting to the Senior Site Engineer. Wherever PMC is engaged, Site Engineer, if any, will work in close co-ordination with PMC.
- vi) **Drawings :** The work is to be carried out in accordance with drawings, specifications, the schedule of quantities & any further drawings which may be supplied or any other instruction, which may be given by the employer during the execution of the work.

All the drawings relating to work given to the contractor together with a copy of schedule of quantities are to be kept at site & the Employer/Architects/PMC shall be given access to such drawings or schedule of quantities whenever necessary.

In case any detailed Drawings are necessary, contractor shall prepare such detailed drawings &/or dimensional sketches therefore & have it confirmed by the Employer/Architects/PMC as case may be prior to taking up such work.

The contractor shall ask in writing for all clarifications on matters occurring anywhere in drawings, specifications & schedule of quantities or to additional instructions at least 10 days ahead

from the time when it is required for implementations so that the Employer may be able to give decision thereon.

- vii) "The works" shall mean the work or works to be executed or done under this contract.
- viii) "Act of Insolvency" shall mean any act as such as defined by the Presidency Towns Insolvency Act or in Provincial Insolvency Act or any Amending Statutes.
- ix) "The Schedule of Quantities" shall mean the schedule of quantities as specified & forming part of this contract.
- x) "Priced Schedule of Quantities" shall mean the schedule of quantities duly priced with the accepted quoted rates of the contractor.

2. SCOPE

The work consists of Interior Works OF **PUNJAB & SIND BANK- SHAHDOL (M.P.)**, under PUNJAB & SIND Bank, Zonal Office, Bhopal, in accordance with the "Drawings" & "Schedule of Quantities". The Interior works, related civil and electrical works etc. complete are within the scope of this tender. It includes furnishing all materials, labor, tools and equipment and management necessary for, and incidental to, the construction & completion of the work. All work, during its progress and upon completion shall conform to the lines, elevations and grades as shown on the drawings furnished by the Employer/Architects. Should any detail essential for efficient completion of the work be omitted from the drawings & specifications it shall be the responsibility of the contractor to inform the Employer/Architects & to furnish & install such detail with Employer's / Architect's concurrence, so that upon completion of the proposed work the same will be acceptable and ready for use.

Employer or his agent (PMC) may in their absolute discretion issue further drawings and/or written instructions, details, directions and explanations, which are, hereafter collectively, referred to as "The Employer's / Architect's instructions" in regard to :

- a) The variation or modification of the design quality or quantity of works or the addition or omission or substitution of any work.
- b) Any discrepancy in the drawing or between the schedule of quantities and/or drawings and/or specifications.
- c) The removal from the site of any defective materials brought thereon by the contractor and the substitution of any other material thereof.
- d) The demolition/removal and/or re-execution of any work executed by the contractors.
- e) The dismissal from the work of any persons employed thereupon.
- f) The opening up for inspection of any work covered up.
- g) The rectification and making good of any defects under clauses hereinafter mentioned and those arising during the maintenance period (retention period).

The contractor shall forthwith comply with and duly execute any work comprised in such Employer's or his Agent/ Architect's instructions, provided always that verbal instructions, directions and explanations given to the contractor's or his representative upon the works by the Employer's or his Agent/ Architect's shall, if involving a variation, be confirmed in writing to the contractor/s within seven days. No works, for which rates are not specifically mentioned in the priced schedule of quantities, shall be taken up without written permission of the Employer's or his Agent/ Architect's. Rates of items not mentioned in the priced schedule of quantities shall be fixed by the employer in consultation with the Architects as provided in clause "variations".

Regarding all factory made products for which ISI marked products are available, only products bearing ISI marking shall be used in the work.

3. TENDERER SHALL VISIT THE SITE

Intending Tenderer shall visit the site & make himself thoroughly acquainted with the local site conditions, nature and requirements of the works, facilities of transport conditions, effective labour and materials, accesses and storage for materials. The Tenderer shall provide in their tender for cost of carriage, freight and other charges as also for any special difficulties and including police restriction for transport etc. for proper execution of work as indicated in drawings. The successful Tenderer will not be entitled to any claim of compensation for difficulties faced or losses incurred on account of any site conditions which existed before the commencement of the work or which in the opinion of the Employer might be deemed to have reasonably been inferred to be so existing before commencement of work.

4. TENDERS

The entire set of tender paper issued to the tenderer should be submitted fully priced and also signed on the last page together with initials on every page. Initials/Signature will indicate the acceptance of the tender papers by the tenderers.

(Also see para 16 of General Rules & Instructions for the Guidance of Tenderers).

The schedule of quantities shall be filled in as follows:

- i) The "Rate" column to be legibly filled in ink in both English figures and English words.
- ii) Amount column to be filled in for each item and the amount for each subhead as detailed in the "Schedule of Quantities".
- iii) All corrections are to be initialed.
- iv) The "Rate Column" for alternative items shall be filled up.
- v) The "Amount" column for alternate items of which the quantities are not mentioned shall not be filled up.
- vi) In case of any errors/omissions in the quoted rates, the rates given in the tender marked "Original" shall be taken as correct rates.

No modifications, overwriting or corrections can be made in the tender papers by the tenderer, but he may at his option offer his comments or modifications in a separate sheet of paper attached to the original tender papers.

The employer reserves the right to reject the lowest or any tender and also to discharge any or all of the tenders for each section or to split up and distribute any item of work to any specialist firm or firms, without assigning any reason. The Bank reserves the right to accept the tender in full or in part and the tenderer shall have no claim for revision of rate or other conditions if his tender is accepted in parts.

The tenderers should note that the tender is strictly on the item rate basis and their attention is drawn to the fact that the rates for each and every item should be correct workable and self-supporting. If called upon by the Employer / Architects detailed analysis of any or all the rates shall be submitted by the contractor. The Employer / Architects shall not be bound to recognize the contractor's analysis.

The works will be paid for as "measured work" on the basis of actual work done and not as "lump sum" contract.

All items of work described in the schedule of quantities are to be deemed and paid as complete works in all respects and details including preparatory and finishing works involved directly related to and reasonably detectable from the drawings, specifications and schedule of quantities and no further extra charges will be allowed in this connection. In the case of lump sum charges in the tender in respect of any item of works, the payment of such items of work will be made for the actual work done on the basis of lump sum charges as will be assessed to be payable by the employer.

The employer has power to add to, omit from any works as shown in drawings or described in specifications or included in schedule of quantities and intimate the same in writing but no addition, omission or variation shall be made by the contractor without authorization from the Employer. No variation shall vitiate the contract.

The tenderer shall note that his tender shall remain open for consideration for a period of 90 days from the date of opening of the tender.

5. AGREEMENT

The successful contractor may be required to sign agreement as may be drawn up to suit local conditions and shall pay for all stamps and legal expenses, incidental thereto.

6. GOVERNMENT AND LOCAL RULES

The contractor shall conform to the provisions of all local By-laws and acts relating to the work and to the regulations etc. of the Government and local authorities and of any company with whose

system the structure is proposed to be connected. The contractor shall give all notices required by said act, rules, regulations and Byelaws etc. and pay all fees payable to such authorities for execution of the work involved. The cost, if any, shall be deemed to have been included in his quoted rates, taking into account all liabilities for licenses, fees for footpath encroachment and restorations etc. He shall indemnify the employer against such liabilities and shall defend all actions arising from such claims or liabilities.

7. TAXES AND DUTIES

The tenderers must clearly mentioned in their tender prices quoted for all duties, royalties, cesses and GST, or any other taxes or local charges, if applicable **Extra or included**. However, work contract tax shall be deducted at source at the specific rate in Union legislative, if applicable. The

certificate in respect of T.D.S. shall be issued by the Bank as per rate. No claim whatsoever on this account shall be entertained.

8. QUANTITY OF WORK TO BE EXECUTED

The quantities shown in the schedule of quantities are intended to cover the entire new structure indicated in the drawings but the Employer reserves the right to execute only a part or the whole or any excess thereof without assigning any reason therefore. Variations in the value is however not expected to be more than $\pm 25\%$.

9. OTHER PERSONS ENGAGED BY THE EMPLOYER

The employer reserves the right to execute any part of the work included in this contract or any work which is not included in this contract by other agency or persons and contractor shall allow all reasonable facilities and use of his scaffolding for the execution of such work. The main contractor shall extend all co-operations in this regard.

10. EARNEST MONEY AND SECURITY DEPOSIT

The tenderer will have to deposit an amount of Rs. 25000/- (Rupees Twenty Five Thousand only) in the form of Bank draft drawn in favor of "PUNJAB & SIND BANK-BHOPAL." Or through online mode in the following account, at the time of submission of tender as an Earnest Money.

A/c Details for Tender Fee & EMD

A/c Name:- Punjab & Sind Bank

A/c No. 80215040070003

IFSC Code:- PSIB0008021

The employer is not liable to pay any interest on the Earnest Money. The Earnest Money of the unsuccessful tenderers will be refunded without any interest soon after the decision to award the work is taken or after the expiry of the validity period of the tender.

The successful tenderer to whom the contract is awarded will have to deposit an initial security deposit, a further sum to make up 2% of the value of the accepted tender including the Earnest Money. The initial Security Deposit will have to be made by the contractor to the bank within 14 days of acceptance of award letter, failing which the employer at his discretion may revoke the letter of acceptance and forfeit the earnest money deposit furnished along with the tender. The initial security deposit shall be accepted in the form of Demand draft and not by Bank Guarantee. Apart from the initial security deposit made as above, retention money shall be deducted from the progressive running bills @ 8% of the gross value of each running bill until the Total Security Deposit plus the retention money equals 10.00% of total cost of work.

The Retention Amount shall be refunded to the contractor on completion subject to the following:

- i) Completion of Defect Liability Period i.e. 12 Months from the date of virtual completion.
- ii) Issue of Virtual Completion Certificate by the Architect/ Premises Dept.

- iii) Contractor's removal of his materials, equipment, labour force etc. from the site (excepting for a small presence required if any for the defect liability period & approved by the Bank.

No interest is allowed on Retention Money.

11. CONTRACTORS TO PROVIDE EVERYTHING NECESSARY

The contractor shall provide everything necessary for the proper execution of the work according to the intent and meaning of the drawings, schedule of quantities and specifications taken together whether the same may or may not be particularly shown or described therein provided that the same can reasonably be inferred there from & if the contractor finds any discrepancies therein, he shall immediately & in writing refer the same to the Employer / Architect/ PMC whose decision shall be final and binding. The contractor shall provide him self for ground & fresh water for carrying out of the works at hi own cost. The Employer shall on no account be responsible for the expenses incurred by the contractor for hired ground or fresh water obtained from else where.

The rates quoted against individual items will be inclusive of everything necessary to complete the said items of work within the contemplation of the contract and beyond the unit price. No extra payments will be allowed for incidental or contingent work, labor and/or materials inclusive of all taxes and duties whatsoever except for specific taxes, if any, stipulated in the tender documents.

The contractor shall supply, fix and maintain at his own cost for the execution of any work, all tools tackles, machinery and equipment's and all the necessary scaffolding, , watching and lighting by night as well as by day required not only for the proper execution and protection of the said work but also for the protection of the public and safety of any adjacent roads, streets, walls, houses, buildings, all other erections, matters and things and the contractor shall take down and remove any or all such scaffolding, etc. as occasion shall be required or when ordered to do so and shall fully reinstate and make good all matters and things distributed during the execution of works to the satisfaction of the Employer/Architect.

The Contractor shall at all times give access to workers employer by the Architect / Employer or any men employed on the buildings and to provide such parties with proper sufficient and if required special scaffolding, hoists and ladders and provide them with water and lighting and leave or make any holes, grooves etc. in any work where directed by the employer as may be required to enable such workmen to lay or fix pipes, electrical wiring, special fittings etc. The quoted rates of the tenders shall accordingly include all these above mentioned contingent works.

12. TIME OF COMPLETION, EXTENSION OF TIME & PROGRESS CHART

1. **Time of completion:** The entire work is to be completed in all respects within the stipulated period. The work shall deem to be commenced within seven days from the date of acceptance letter issued to the contractor or the day on which contractor is instructed to take possession of site, whichever is latter. Time is the essence of the contract and shall be strictly observed by the contractor.

The work shall not be considered as completed until the Employer have certified in writing that work has been completed and the defects liability period shall commence from the date of such certificate.

2. **Extension of Time :** If, in the opinion of the Employer/Architect/ PMC the works be delayed,(a) By reason of any exceptionally inclement weather, or (b) by reason of instruction from the employer in consequence of proceedings taken of threatened by or disputes, with adjoining or neighboring owners or (c) by the works, or delay, of other contractors or tradesmen engaged or nominated by the Employer and not referred to in the

specification or (d) By reason of authorized extra and additions or (e) By reason of any combination of workmen or strikes or lockout effecting any of the building trades or (f) From other causes which the employer may consider are beyond the control of the contractor, the Employer at the completion of the time allowed for the contract shall make fair and reasonable extension of the time for completion in respect therefore. In the event of the Employer failing to give possession of the site upon the day specified above the time of completion shall be extended suitably.

In case of such strikes or lockouts, as are referred to above, the contractor shall immediately give the employer, written notice thereof. Nevertheless, the contractor shall use his best endeavors all that to prevent delay, and shall do all that may be reasonably required, to the satisfaction of the employer to proceed with the works and on his doing so that it will be ground of consideration by the employer for an extension of time as above provided. The decision of the Employer as to the period to the allowed for an extension of time for completion hereunder (which decision shall be final and binding on the contractor) shall be promulgated at the conclusion of such strike or lockout and the employer shall then, in the event of an extension being granted, determine and declare the final completion date. The provision in clause 13, with respect to payment of liquidated damages shall, in such case, be read and construed as if the extended date fixed by the employer were substituted for and the damage shall be deducted accordingly.

3. Progress of work : During the period of construction the contractor shall maintain proportionate progress on the basis of a programmed chart submitted by the contractor immediately before commencement of work and agreed to by the employer/Architect. Contractor should also include planning for procurement for scarce material well in advance and reflect the same in the programmed chart so that there is no delay in completion of the project.

13. LIQUIDATED DAMAGES

Should the work be not completed to the satisfaction of the Employer/Architect within the stipulated period, the contractor shall be bound to pay to the employer a sum calculated as given below by way of liquidated damages and not as penalty during which the work remains un commenced or unfinished after the expiry of the completion date.

a)	For contracts having time for completion 6 months & Less.	1.00% of the estimated amount shown in the tender per week subject to a ceiling of 10% of the accepted contracted sum.
b)	For contracts having time for completion exceeding 6 months but not exceeding 24 months.	0.5% of the estimated amount shown in the tender per week subject to a ceiling of 7.5% of the accepted contracted sum but not exceeding the total S.D. of the contract.
c)	For contracts having time for completion in excess of 2 years (24 months).	0.25% of the estimated amount shown in the tender per week subject to a ceiling of 5% of the accepted contracted sum but not exceeding the total S.D. of the contract.

14. TOOLS, STORAGE OF MATERIALS, PROTECTIVE WORKS & SITE OFFICE REQUIREMENTS

The contractor shall provide, fix up and maintain in an approved position proper office accommodation for the contractor's representative and staff, which offices shall be open at all reasonable hours to receive instruction, notices or communication and clear away on completion of the work and make good all work disturbed.

All drawings maintained on the site are to be carefully mounted on boards of appropriate size and covered with a coat of approved varnish. They are to be protected from ravages of termites, ants and other insects.

The contractor shall provide at site at his own cost all artificial light required for the work and to enable other contractors and subcontractors to complete the work within the specified time.

The Contractor shall provide a suitable temporary hut for the watchmen and clear away the same when no longer required and to provide all necessary attendants, lights etc. required.

The contractor shall arrange for temporary latrines for the use of workers and field staff and keep the same in a clean sanitary condition to the satisfaction of the Public Health Authorities and shall cause such latrines and soil to be cleared away whenever necessary and shall make good all the works disturbed by these conveniences.

Every precaution shall be taken by the contractor to prevent the breeding of mosquitoes on the works during the construction and all receptacles, cisterns, water tanks etc. used for the storage of water must be suitably protected against breeding of mosquitoes. The contractor shall indemnify the employer against any breach of rules in respect of anti-malarial measures. The contractor shall not fix or place any placards or advertisement of any description or permit the same to be fixed or placed in or upon any boarding, gantry, building structure other than those approved by the Employer.

Protective Measures

The contractor from the time of being placed in possession of the site must make suitable arrangements for watching, lighting and, protecting the work, the site and surrounding property by day, by night, on all days including Sundays and other holidays.

Contractor shall indemnify the employer against any possible damage to the building, roads, or member of the public in course of execution of the work.

The contractor shall provide necessary temporary enclosures, gates, entrance etc. for the protection of the work and materials and for altering and adopting the same as may be required and removing on completion of the works and making good all works disturbed.

Storage of materials

The contractor shall provide and maintain proper sheds for the proper storage and adequate protection of the materials etc., and other work that may be executed on the site including the tools and materials of subcontractors and remove same on completion.

Tools

All instruments like steel tape etc. which is found necessary for the works shall be provided by the contractor for due performance of the contract.

All measuring tapes shall be of steel and suitable scaffolding and ladders that may be require for safety taking measurements and shall be supplied by the contractor.

The Mistree's and the supervisors on the works shall carry with them always a one meter or two meter steel tapes, a measuring tape of 30 meters, a spirit level, a plumb bob and a square and shall check the work to see that work is being done according to the drawings and specifications. The site engineer will use any or all measuring instruments or tools belonging to the contractor as he chooses for checking the works executed or being executed on the contract.

The contractor should cover in his rates for making provisions for all reasonable facilities for the use of his scaffolding, tools and plants etc. by subcontractors for their work.

15. NOTICE AND PATENTS OF APPROPRIATE AUTHORITY AND OWNERS

The Contractor shall confirm to the provisions or any acts of the legislature relating to the work, and to the regulations and By-Laws of any authorities, and / or any water, lighting and other companies, and / or authorities with whose system the structures were proposed to have constructed and shall before making any variation from the drawings or specifications that may be associated to so confirm, give the Employer/Architects written notice, specify the variations

proposed to be made and the reasons for making them and apply for instructions thereon. the Employer on receipt of such intimation shall give a decision with a reasonable time.

The Contractors shall arrange to give all notices required for by the said acts, regulations or By-laws to be given to any authority, and to pay to such authority or to any public officer all fees that may be properly chargeable in respect of the work and lodge the receipts with the Employer

16. CLEARING SITE AND SETTING OUT WORKS

The contractor shall set out the works and shall be responsible for the true and perfect setting out of the work and for the correctness of the positions, levels, dimensions and alignment of all parts thereof. If at any time, any error shall appear during the progress of any parts of the works the contractor shall at his own expenses rectify such error, if called upon to the satisfaction of the employer. The contractor shall further set out the work to the alternative positions at the site until

one is finally approved and the rates quoted in his tender should include for this and no extra on this account will be entertained.

17. ACCESS

Any authorized representative of the Employer/Architect shall at all reasonable times have free access to the works and/or to the workshops, factories or other places where materials are being prepared or constructed for the work and also to any place where the materials are lying or from where they are being obtained, and the contractor shall give every facility to the bank or their representatives necessary for inspection and examination and test of the materials and workmanship. Except the representatives of the Employer, no person shall be allowed at any time without the written permission of the Employer.

18. MATERIALS, WORKMANSHIP, SAMPLES, TESTING OF MATERIALS

All the works specified and provided for in the specifications or which may be required to be done in order to perform and complete any part thereof shall be executed in the best and most workman like manner with materials of the best and approved quality of the respective kinds in accordance with the particulars contained in and implied by the specifications and as represented by the drawings or according to such other additional particulars and instructions as may from time to time be given by the Employer/Architect during the execution of the work, and to his entire satisfaction.

If required by the Employer/Architect the contractor shall have to carry out tests on materials and workmanship in approved materials testing laboratories or as prescribed by the employer at his own cost to prove that the materials etc. under test confirming to the relevant IS standards or as specified in the specifications. The necessary charges for preparation of mould, (in case of concrete cube), transporting, testing etc. shall have to be borne by the contractor. No extra payment on this account would in any case be entertained.

All the materials (except where otherwise described) stores and equipment required for the full performance of the work under the contract must be provided through normal channels and must include charge for import duties, sales taxes, octroi and other charges and must be the best of their kind available and contractor/s must be entirely responsible for the proper and efficient carrying out of the work. The work must be done in the best workman like manner. Samples of all materials to be used must be submitted to the Employer/Architect when so directed by the Engineer/Architects and written approval from Employer/Architect must be obtained prior to placement of order. The approved samples shall be kept with the Employer till the completion of work.

Should the work be suspended by reason of rain, strike, lockouts or any other cause, the contractor shall take all precautions necessary for the protection of work and at his own expenses shall make good any damage arising from any of these causes.

The contractor shall cover up and protect from damage, from any cause, all new work and supply all temporary doors, protection to windows, and any other requisite protection for the execution of the work whether by himself or special tradesmen or subcontractor and any damage caused must be made good by the contractor at his own expenses.

19. REMOVAL OF IMPROPER WORK

The Employer shall during the progress of the work have power to order in writing from time to time the removal from the work within such reasonable time or times as may be specified in the order of any materials which in the opinion of the Employer/Architect are not in accordance with specification or instructions, the substitution or proper re-execution of any work executed with materials or workmanship not in accordance with the drawings and specifications or instructions. In case the contractor refuses to comply with the order the employer shall have the power to employ and pay other agencies to carry out the work and all expenses consequent thereon or incidental there to as certified by the employer shall be borne by the contractor or may be deducted from any money due to or that may become due to the contractor. No certificate which may be given by the Architects shall relieve the contractor from his liability in respect of unsound work or bad materials.

20. SITE ENGINEER / PROJECT MANAGEMENT CONSULTANT

The term, "Site Engineer / PMC" shall mean the person / agencies appointed & paid by the Employer to superintend the work. The contractor shall afford the Site Engineer /PMC every facility and assistance for examining the works and materials for checking and measuring work and materials. The Site Engineer/PMC shall have no power to revoke, alter, enlarge or relax any requirements of the contractor or to sanction any day work, additions, alterations, deviations, or omissions or any extra work whatever, except in so far as such authority may be specially conferred by a written order of the Employer.

The Site Engineer/PMC shall have power to give notice to the contractor or to his foreman of non approval of any work or materials and such work shall be suspended or the use of such materials shall be discontinued until the decision of the employer is obtained. The work will from time to time be examined by the Architects, Engineer from the premises department of the Employer and the Site Engineer if any. But such examination shall not in any way exonerate the contractor from the obligation to remedy defects which maybe found to exist at any stage of the work or after the same is complete ,Subject to the limitations of this clause the contractor shall take instructions only from the Architects/Employer or his representative.

21. CONTRACTOR'S EMPLOYEES

The Contractor shall employ technically qualified and competent supervisors for the work who shall be available (by turn) through out the working hours to receive and comply with instructions of the Employer/Architects. The contractor shall engage at least one experienced Engineer as site-in-charge for execution of the work. The contractor shall employ in connections with the work persons having the appropriate skill or ability to perform their job efficiently.

The contractor shall employ local laborers on the work as far as possible.

No laborers below the age of sixteen years and who is not an Indian National shall be employed on the work.

Any laborer supplied by the contractor to be engaged on the work on day work basis either wholly or partly under the direct order or control of the Employer or his representative shall be deemed to be a person employed by the contractor.

The contractor shall comply with the provisions of all labour legislation's including the requirements of:

- a) The payment of Wages Act.
- b) Employer's Liability Act.
- c) Workmen's Compensation Act.
- d) Contractor Labor (Regulation & Abolition) Act, 1970 and Central Rules 1974.
- e) Apprentices Act 1961.
- f) Any other Act or enactment relating thereto and rules framed there under from time to time.

The contractor shall keep the Employer saved, harmless and indemnified against claims if any of the workmen or any other person and all costs and expenses as any be incurred by the Employer in connection with any claim that may be made by any workman or any other person.

The contractor shall comply at his own cost with the order of requirement of any Health Officer of the state or any local authority or of the Employer regarding the maintenance of proper environmental sanitation of the area where the contractor's laborers are housed or accommodated, for the prevention of small pox, cholera, plague, typhoid, malaria and other contagious diseases. The contractor shall provide maintain and keep in good sanitary condition adequate sanitary accommodation and provide facilities for pure drinking water at all times for the use of men engaged on the works and shall remove and clear away the same on completion of the works. Adequate precautions shall be taken by the contractor to prevent nuisance of any kind on the works or the lands adjoining the same.

The contractor shall arrange to provide first aid treatment to the laborers engaged on the works. He shall within 24 hours of the occurrence of any accident at or about the site or in connection with execution of the works, report such accident to the employer and also to the competent authority where such report is required by law.

22. DISMISSAL OF WORKMEN

The contractor shall on the request of the employer immediately dismiss from works any person employed thereon by him who may in the opinion of the employer be unsuitable or incompetent or who may misconduct himself. Such discharges shall not be the basis of claim for compensation or damages against the Employer or any of their officers or employee.

23. ASSIGNMENT

The whole of the works included in the contract shall be executed by the contractor and the contractor shall not directly or indirectly transfer, assign or underlet the contract or any part, share or interest therein nor, shall take a new partner without written consent of the employer and no subletting shall relieve the contractor from the full and entire responsibility of the contract or from active superintendence of the work during their progress.

24. DAMAGE TO PERSONS AND PROPERTY INSURANCE ETC.

The contractor shall be responsible for all injury to the worker or workmen or persons, or things and for all damages to the project works, materials, equipments, structural and/or decorative part of property which may arise from the operations or neglect of himself or of any subcontractor or any of his or a subcontractor's employees whether such injury or damage arise from carelessness, accident or any other cause whatsoever in any way connected with the carrying out of this contract. The clause shall be held to include inter alia any damage to buildings whether immediately adjacent or otherwise and any damage to roads, streets, foot paths or ways as well as damages caused to the buildings and the works forming the subject of this contract by rain, wind or other inclemency of the weather. The contractor shall indemnify the employer and hold harmless in respect of all and any expenses arising from any such injury or damages to persons or property as aforesaid and also in respect of any claim made in respect of injury or damage under any acts of compensation or damage consequent upon such claim.

The contractor shall re-instate, rectify and remedy all damages of every sort mentioned in this clause so as to deliver the whole of the contract works complete and perfect in every respect and so as to make good or otherwise satisfy all claims for damages to the property or third parties.

The contractor shall affect the insurance necessary and indemnify the employer entirely from all responsibility in this respect. The insurance must be placed with company approved by the employer and must be effected jointly in the name of the contractor and the employer and the policy lodged with the latter. The scope of insurance is to include damage or loss to the contract itself till this is made over in a complete state. Insurance is compulsory and must be affected for the very initial stage. The contractor shall also be responsible for anything which may be excluded from the damage to any property arising out of incidents, negligence or defective carrying out of this contract.

The employer shall be at liberty and hereby empowered to deduct the amount of any damages, compensations, costs, charges and expenses arising or accruing from or in respect of any such claim or damages from any sums including the total security deposit due or to become due to the contractor.

25. INSURANCE

Unless otherwise instructed the contractor shall insure the works for all risk (include fire, flood, earthquake & third party) of the contractor for total tender value and keep them insured until the virtual completion of the contract against any loss or damage of the material and of the project. The insurance must be placed with a company approved by the Employer in the joint names of the Employer and the contractor for such amount and for any further sum if called to do so by the Employer. Further the premium of such sum being allowed, to the contractor, as an “authorized extra”.

The contractor shall deposit the policy and receipt premium paid with the Employer within 21 (twenty one) days from the date of issue of work order unless otherwise instructed. In default of the contractor insuring as provided above the Employer on his behalf may so insure and may deduct the premiums paid from any money due, or which may become due to the contractor. The contractor shall as soon as the claim under the policy is settled or the work reinstated by Insurance Company should they elect to do so, proceed with due diligence with the completion of the works in the same manner as though the fire has not occurred and in all respects under the conditions of the contract. The Contractor in case of rebuilding or rein-statement after fire shall be entitled to extension of time for completion as the Employer may deem fit.

26. ACCOUNTS RECEIPT & VOUCHERS

The contractor shall, upon the request of the employer furnish them with all the invoices, accounts, receipts and other vouchers that they may require in connection with the works under this contract. If the contractor shall use materials less than what he is required under the contract, the value of the difference in the quantity of the materials he was required to use and that he actually used shall be deducted from his dues. The decision of the employer shall be final and binding on the contractor as to the amount of materials. The contractor is required to use for any work under this contract.

27.

Before taking any measurement of any work the site Engineer or a subordinate deputed by him shall give reasonable notice to the contractor. If the contractor fails to attend at the measurements after such notice or fails to countersign or to record the difference within a week from the date of measurement in the manner required by the Site Engineer then in any such event the measurements taken by the Site Engineer or by the subordinate deputed by him as the case may be is final and binding on the contractor and the contractor shall have no right to dispute the same.

28. PAYMENTS

All Bills shall be prepared by the contractor in the form prescribed by the Employer/ Architects. Normally one interim bill shall be prepared each month subject to minimum value for interim certificate as dated in these documents. The bills in proper forms must be duly accompanied by detailed measurements in support of the quantities of work done & must show deductions from all previous payments, retention money, etc.

The Employer / Architect shall issue a certificate after the due scrutiny of the contractor's bill stating the amount due to the contractor from the Employer & the contractor shall be entitled to payment thereof, within the period of honoring the certificates named in these documents. In case of delay due to some reasons in the processing of such bills for payment, an adhoc advance of 75% of the billed amount may be paid on the request of the contractor for the smooth progress of work.

The amount state in the interim certificate shall be the total value of work properly executed & 7% of the invoice value of material brought to site for permanent incorporation into the work up to the date of the bills less the amount to be retained by the employer as retention money vide clause 10 of these conditions & less installments previously paid under these conditions, provided that such certificates shall only include the value of said material & goods as & from such time as they are reasonably, properly & not prematurely brought to or placed adjacent to the work & then only if adequately protected against the weather or other causalities.

The Employer will deduct retention money as described in clause 10 of these conditions. The refund of retention money will be made as specified in the said clause.

If the Employer has supplied any materials or goods to the contractor, the cost of any such materials or goods will be progressively deducted from the amount due to the contractor in accordance with the quantities consumed in the work.

All interim payments shall be regarded as payments by way of advance against the final payment only & not as payments for the work actually done & completed, & shall not preclude the requiring of bad, unsound & imperfect or unskilled work to be removed & taken away & reconstructed, or re-erected or be considered as an admission of the due performance of the contract, or any part thereof in any respect or the accruing of any claim, nor shall, it conclude, determine or affect in any way the power of the Employer under these conditions or any of them as to the final

settlement & adjustment of the accounts or otherwise or in any other way vary or affect the contract. The final Bill shall be submitted by the contractor within one month of the date fixed for completion of the work or of the date of certificate of completion furnished by the site Engineer & payment shall be made within three months.

29. FINAL PAYMENTS

The final bill shall be accompanied by a certificate of completion from the Employer/ Architect. Payments of final bill shall be made after deduction of Retention Money as specified in clause 10 of these conditions, which sum shall be refunded after the completion of the Defects Liability Period after receiving the Employer's / Architect's certificate that the contractor has rectified all defects to the satisfaction of the Employer / Architects. The acceptance of payments of the final bill by the contractor would indicate that he will have no further claim in respect of the work executed.

30. VARIATION/DEVIATIONS

The price of all such additional items/ non tendered items will be worked out on the basis of rates quoted for similar items in the contract wherever existing or an engineering rate analysis based on prevalent fair price of labor, material & other components as required. The tender rates shall hold good for any increase or decrease in the tendered quantities up to variations of 25%. For variations beyond 25%, the rates for the respective items may be reviewed on mutually agreed terms.

31. SUBSTITUTION

Should the contractor desire to substitute any materials and workmanship, he/they must obtain the approval of the Architect/Employer in writing for any such substitution well in advance. Materials designated in this specification indefinitely by such terms as "Equal" or "other approved" etc., specific approval of the Employer/Architect has to be obtained in writing.

32. PREPARATION OF BUILDING WORKS FOR OCCUPATION AND USE ON COMPLETION

The whole of the work will be thoroughly inspected by the contractor and deficiencies and defects put right. On completion of such inspection the contractor shall inform the employer that he has completed the work and it is ready for inspection.

On completion, the contractor shall clean all windows and doors including the cleaning and oiling, if necessary, of all hardware, inside and outside, all floors, staircases, and every part of the building. He will leave the entire building neat and clean and ready for immediate occupation and to the satisfaction of the Bank.

33. CLEARING SITE ON COMPLETION

On completion of the works, the contractor shall clear away and remove from the site all constructional plant, surplus materials, rubbish and temporary works of every kind and leave the whole of the site and the works clean and in a workmanlike condition to the satisfaction of the Employer / Architects.

The contractor shall make good at his own cost and to the satisfaction of the Employer all defects, shrinkages or other faults which may appear within 6 months after completion of the work. In default, the employer may employ and pay other persons to amend and make good such damages, losses and expenses consequent thereon or incidental thereto shall be made good and borne by the contractor and such damages, losses and expenses shall be recoverable from him by the employer or may be deducted by the employer, in lieu of such amending and making good by the contractor, deduct from any money due to the contractor a sum equivalent to the cost of

amending such work and in the event of the amount retained being insufficient, recover that balance from the contractor from the amount retained under clause No. 10 together with any expenses the Employer may have incurred in connection therewith.

34. CONCEALED WORK

The contractor shall give due notice to the Employer / Architects whenever any work is to be buried in the earth, concrete or in the bodies of walls or otherwise becoming inaccessible later on, in order that the work may be inspected and correct dimensions taken before such burial, in default whereof the same shall, at the option of the Employer/Architect be either opened up for

measurement at the contractor's expense or no payment may be made for such materials. Should any dispute or differences arise after the execution of any work as to measurements etc., or other

matters which cannot be conveniently tested or checked, the notes of the Employer / Architect shall be accepted as correct and binding on the contractor.

35. ESCALATION

The rates quoted shall be firm throughout the tenure of the contract (including extension of time, if any, granted) & will not be subject to any fluctuation due to increase in cost of materials, labor, sales tax, octroi, etc. unless specifically provided in these documents.

The price variation clause being adopted by the RBI may be followed, if such a situation arises on a case to case basis.

Further in case of variation in the wages of labor due to statutory enactments like the revision of the Minimum Wages Act by more than 10%, the increase in actual cost due to implementation of the statutory provision based on the number & category of labor actually borne on the Muster during the period under consideration may also be considered, if provided in the tender.

36. IDLE LABOUR

Whatever the reasons may be no claim for idle labor, additional establishment cost of hire and labor charges of tools and plants would be entertained under any circumstances.

37. SUSPENSIONS

If the contractor, except on account of any legal restraint upon the Employer preventing the continuance of the work, abandons, suspends work or in the opinion of the Employer, the contractor neglects or fails to proceed with due diligence in the performance of his part of the contract, the Employer shall have the power to give notice in writing to the contractor requiring the work be proceeded within a reasonable manner and with reasonable dispatch, such notices purport to be a notice under this clause.

After such notice shall have been given the contractor shall not be at liberty to remove from the site of the works or from any ground contiguous thereto any plant or materials to subsist from the date of such notice being given until the notice shall have been complied with. If the contractor shall fail for 7 (seven) days after such notice has been given to proceed with the works as therein prescribed, the Employer may proceed as provided in clauses 38 (Termination of contract by Employer).

38. TERMINATION OF CONTRACT BY EMPLOYER

If the contractor being a company go into liquidation whether voluntary or compulsory or being a firm shall be dissolved or being an individual shall be adjudicated insolvent or shall make an assignment or a composition for the benefit of the greater part, in numbers or amount of his creditors or shall enters into a Deed or arrangement with his creditors or if the official assignee in insolvency of the receiver of the contractor in insolvency, shall repudiate the contract, or if a receiver of the contractor's appointed by court shall be unable, within fourteen days after notice to him requiring him to do so, to show to the reasonable satisfaction of the Employer that he is able to carry out and fulfill the contract, and if so required by the employer to give reasonable security therefore, or if the contractor shall suffer execution to be issued, or shall suffer any payment under this contract to be attached by or on behalf of and the creditors of the contractor, or shall assign charge or encumber this contract or any payments due or which may

become due to the contractor there under, or shall neglect or fail to observe and perform all or any of the acts matters of things by this contract to be observed and performed by the contractor within three clear days after the notice shall have been given to the contractor in manner hereinafter mentioned requiring the contractor to observe or perform the same or shall use improper materials or workmanship in carrying on the works, or shall in the opinion of the employer not exercised such due diligence and make such due progress as would enable the work to be completed within due time agreed upon, and shall fail to proceed to the satisfaction of the employer after three clear days notice requiring the contractor so to do shall have been given to the contractor as hereinafter mentioned, or shall abandon the contract, then and in any of the

said cases, the bank may notwithstanding previous waiver determine the contract by a notice in writing to the effect as hereinafter mentioned, but without thereby effecting the powers of the employer of the obligations and liabilities of the contractor the whole of which shall continue in force as fully as if the contract, had not been so determined and as if the works subsequently executed had been executed by or on behalf of the contractor (without thereby creating any trust in favor of the contractor). Further the employer or his agent, or servants, may enter upon and take possession of the work and all plants, tools, scaffolding, sheds, machinery, steam and other power utensils and materials lying upon premises or the adjoining lands or roads and sell the same as his own property or may employ the same by means of his own servants and workmen in carrying on and completing the works or by employing any other contractors or other persons or person to complete the works and the contractor shall not in any way interrupt or do any act, matter of thing to prevent or hinder such other contractors or other persons or person employed from completing and finishing or using the materials and plants for the works when the works shall be completed, or as soon thereafter as conveniently may be, the employer shall give notice in writing to the contractor to remove his surplus materials and plants and should the contractor fail to do so within a period of fourteen days after receipt by him. The employer may sell the same by Public Auction and shall give credit to the contractor for the amount so released. Any expenses or losses incurred by the employer in getting the works carried out by other contractors shall be adjusted against the amount payable to the contractor by way of selling his tools and plants or due on account of work carried out by the contractor prior to engaging other contractors or against the Security Deposit.

39. ARBITRATION

All disputes or differences of any kind whatsoever which shall at any time arise between the parties hereto touching or concerning the works or the execution or maintenance thereof of this contract or the rights touching or concerning the works or the execution of maintenance thereof of this contract or the construction remaining operation or effect thereof or to the rights or liabilities of the parties or arising out of or in relation thereto whether during or after determination for closure or Breach of the contract (other than those in respect of which the decision of any person is by the contract expressed to the final and binding) shall after written notice by either party to the contract to the other of them and to the Employer hereinafter mentioned be referred for adjudication to a sole arbitrator to be appointed as hereinafter provided.

For the purpose of appointing the sole Arbitrator referred to above, the employer will send within thirty days of receipt of the notice, to the contractor a panel of three names of persons who shall be presently unconnected with the Organization for which the work is executed.

The Contractor shall on receipt of the names as aforesaid, select any one of the persons named to be appointed as a sole Arbitrator and communicate his name to the employer within thirty days of receipt of the names. The employer shall thereupon without any delay appoint the said person as the Sole Arbitrator. If the contractor fails to communicate such selection as provided above within the period specified, the component authority shall make the selection and appoint the selected person as the Sole Arbitrator.

If the Employer fails to send to the contractor the panel of three names as aforesaid within the period specified, the contractor shall send to the employer a panel of three names of persons who shall all be unconnected with either party. The Employer shall on receipt of the names as aforesaid select any one of the persons named and get appointed him as a Sole Arbitrator. If the Employer fails to select the person and appoint him as the Sole Arbitrator within 30 days of receipt of the panel and inform the contractor accordingly, the contractor shall be entitled to appoint one of the person from the panel as the Sole Arbitrator and communicate his name to the Employer.

If the Arbitrator so appointed is unable or unwilling to act or resign his appointment or vacates his office due to any reason whatsoever another Sole Arbitrator shall be appointed as aforesaid.

The work under the contract shall however continue during the Arbitration proceedings and no payments due or payable to the contractor shall be withheld on account of such proceedings.

The Arbitrator shall be deemed to have entered on the reference on the date he issues notice to both the parties fixing the date of the first hearing.

The Arbitrator may from time to time with the consent of the parties enlarge the time for making and publishing the award.

The Arbitrator shall give a separate award in respect of each dispute or difference referred to him. The Arbitrator shall decide each dispute in accordance with the terms of the contract and give a reasoned award. The venue of Arbitration shall be such place as may be fixed by the Arbitrator on his sole discretion.

The fees, if any, of the Arbitrator shall, if required to be paid before the award is made and published, be paid half and half by each of the parties. The costs of the reference and of the award including the fees, if any, of the Arbitrator who may direct to and by whom in what manner such costs or any part thereof shall be paid and may fix or settle the amount of costs to be so paid.

The award to the Arbitrator shall be final and binding on both the parties.

Subject to aforesaid the provisions of the Arbitration Act 1940 or any statutory modification or reenactment thereof and the rules made there under and for the time being enforce, shall apply to the Arbitration proceeding under this clause.

The Employer and contractor hereby also agree that arbitration under clause shall be a condition precedent to any right to action under the contract with regard to the matters hereby expressly agreed to be so referred to arbitration.

SECTION III

SPECIAL CONDITION OF CONTRACT

1. MATERIALS PROVIDED BY EMPLOYER

i) The Employer may reserve to themselves the right to provide certain materials as mentioned for the work at the time of awarding contract or during the progress of the work and these shall be jointly inspected by the Engineer and the contractor before issue of materials. Suitability and sufficiency of the material shall be checked by the contractor.

ii) After the materials are received, the contractor shall not decline to accept responsibility for the proper quality, safety and sufficiency of the resulting work or structure by alleging defects of materials received from the Employer.

iii) The value of materials provided by the Employer shall be calculated at the prevalent market rates/invoice rates including all taxes, duties transportation, labor and other incidentals by the Engineer and the amounts shall be deducted in full from the interim Bill of the contractor as and where applicable.

iv) For all materials, issued free of cost to the contractor, the rates for such complete, items shall be suitably modified/varied by the Engineer, unless otherwise provided for in the contract.

v) Wastage of extra quantity of materials used by the contractor over and above the allowed quantity as determined by the Engineer shall be taken as unnecessary and unauthorized and such use/wastage shall be at the cost of the contractor.

The Employer will not be bound to take back such materials found surplus with the contractor either before or after the completion of work or on an earlier termination of the contract, unless otherwise provided for in the contract.

vi) On loss or damage of any such materials, it shall be replaced by the contractor with the same quality/brand with the approval of Engineer or the value of such material would be recovered from interim bill of the contractor at the prevalent market rate, as would be appropriate in the opinion of the Engineer.

1.2(i) The contractor will be required to pay all taxes levied by the Central and/or State Governments on such part of his profit in respect of the contract as in chargeable therewith under the laws for the time being in force.

1.2(ii) The contractor's staff will be liable to pay all taxes levied by the Central and/or Union Governments on such of their salaries as are chargeable there with under the laws for the time being in force and the contractor shall conform such duties in regard to the deduction thereof as may be lawfully imposed on him.

1.2(iii) Contractor shall have to produce the certificate from the manufacturer or their authorized dealers for all procured products confirming use of specific materials at site.

2. ELECTRICITY AND WATER

2.1 The Contractor shall be provided Electricity and water at one point only by the Bank and the Contractor shall pay to the Bank for the consumption of this facility on mutually agreed upon by the Bank and the Contractor.

- 2.2 Regarding all factory made products for which I.S.I. marked products are available, only products bearing I.S.I. marks shall be used in the work unless otherwise mentioned in the list of approved make of material in the tender.
- 2.3 CARE FOR EXISTING PROPERTY: The Contractor shall make all necessary arrangements as required by the Employer to ensure that all existing property of the Owner are not damaged or disrupted by the Contractor in any way. If in spite of his best efforts there is some disruption, or loss occurs, the Contractor shall reinstate and make it good as early as possible without any additional cost to the Owner.

3. **DRAWINGS:** Some of the detailed drawings may not be ready at the time of placing the order. The Contractor will have to proceed with the work till such time such drawings are released. The Contractor shall have absolutely no claim on the Owner on this account. Efforts will be made however, to release drawings progressively to have un-interrupted progress. Contractor will prepare/Shop drawings wherever required by Bank/Architects.

S E C T I O N I V

M E A S U R E M E N T

1. MEASUREMENT

- 1.1 The number of pages for measurements alone shall be 100 per book. If convenient, the measurement book may be provided with perforated sheets, in triplicate, for dispatch to concerned authorities. The pages shall be serially machine numbered. The book shall be in the custody of the Site Engineer.
- 1.2 In addition to pages for measurements, pages shall be provided for index. Instructions, Certificate of Condition (wholeness) of the Book and Record of handling and taking over.
- 1.3 Each book shall bear an identifying number.

2. RECORDING OF MEASUREMENTS

- 2.1 The measurements shall be generally recorded by the Site Engineer or by the Consultant of the bank, specifically authorized for the purpose.
- 2.2 The Site Engineer (or his representative) shall take joint measurements (i.e. accompanied by the contractor's authorized representative) of the work as it progresses and record them directly in the Measurement Books.
- 2.3 It shall be ensured that the method of measurement is in accordance with the contract. The precision in measurements shall be as laid down in IS 1200. Any points of disagreement with the contractor pertaining to measurements shall be promptly referred to the decision of the competent authority.
- 2.4 Extra/deviated items, as claimed by the contractor, shall not be recorded in Measurement Book until they are approved by the competent authority.
- 2.5 In case some allegedly extra/deviated item is carried out by the contractor while complying with approved drawings and specifications, and the same is to be covered up, the Site Engineer shall check the item and its specification and record its measurements but simultaneously enter up the provision that their admittance is subject to the approval by the competent authority. Both the measurements and the proviso shall be got signed by the contractor.
- 2.6 The measurement Book shall not be handed over to the contractor at any time. The contractor or his representative may be permitted by the Site Engineer to see it in his presence and/or make a (concurrent) copy of his own. The contractor shall, however, be warned that his copy shall be regarded as an unofficial copy of the bank's Measurement Book. This is the only authorized document in the matter.
- 2.7 The measurement shall be signed at the end of each session on measurement of the day's work, as the case may be, by both the parties (i.e. Measurer/Site Engineer and the contractor).

3. CONCEALED WORK

- 3.1 The contractor shall give due notice to the Employer whenever any work is to be covered up in the bodies of walls or otherwise, becoming inaccessible later on, in order that the work may be inspected and correct dimensions taken before such burial. In default where of the same shall, at the opinion of the Employer be either opened up for measurement at the contractor's expenses or no payment may be made for such materials. Should any dispute or difference arise after the execution of any work as to measurements etc. or other matters which cannot be conveniently tested or checked, the notes of the employer shall be accepted as correct and binding on the contractor.

4. The following instructions shall be borne in mind while taking measurements.
- 4.1 The work shall be measured in the same sequence as constructed.
5. Checking of Measurements: Checking of the measurements shall be as under.
- 5.1 It shall not be perfunctory and should result in revealing errors, accidental or deliberate, by the staff. It should also serve as a process of instruction to junior staff:
- 5.2 Measurements recorded shall be checked not less than 25% by Bank's representative from the Zonal Office and 100% measurement by the architect.

SECTION V

SAFETY CODE

SCAFFOLDS

1. Suitable scaffolds shall be provided for workmen for all works that cannot safely be done from the ground, or from solid construction except in the case of short duration work which can be done "safely from ladders" when a ladder is used, it shall be of rigid construction made either of good quality wood or steel. The steps shall have a minimum width of 450 mm and a maximum rise of 300 mm. Suitable hand hold of good quality wood or steel shall be provided and the ladder shall be given an inclination not steeper than 1/4 to 1 (1/4 horizontal and 1 vertical).
2. Scaffolding or staging more than 4m, above the ground floor, swung or suspended from an overhead support or erected with stationary support shall have a guard rail properly bolted, braced or otherwise secured, at least 1 m, above the floor or platform of such scaffolding or staging and extending along the entire length of the outside and ends thereof with only such openings as may be necessary for the delivery of materials. Such scaffolding or staging shall be so fastened as to prevent it from swaying from the building or structure.
3. Working platforms, gangways and stairway shall be so constructed that they do not sag unduly or unequally and if the height of the platform, gangway or stairway is more than 4 m, above ground level or floor level, they shall be closely boarded and shall have adequate width and be suitably fenced as described in (ii) above.
4. Every opening in the floor of a building or in a working platform shall be provided with suitable means to prevent the fall of persons or materials by providing suitable fencing or railing whose minimum height shall be 1m.

Where ever there are open excavations in ground, they shall be fenced off by suitable railing and danger signals installed at night so as to prevent persons slipping into the excavations.
5. Safe means of access shall be provided to all working places. Every ladder shall be securely fixed. No portable single ladder shall be over 9M, in length while the width between side rails in rung ladder shall in no case, be less then 290 mm, for ladder up to and including 3M, in length for longer ladders this width shall be increased at least 20 mm for each additional meter of length.
6. A sketch of the ladders and scaffolds proposed to be used shall be prepared and approval of the Engineer obtained prior to construction.

OTHER SAFETY MEASURES

7. All personnel of the Contractor working with in the plant site shall be provided with safety helmets. All welders shall wear welding goggles while doing welding work and all metal workers shall be provided with safety gloves. Persons employed on metal cutting and grinding shall wear safety glasses.

8. Adequate precautions shall be taken to prevent danger from electrical equipment. No materials on any of the sites of work shall be so stacked or placed as to cause danger or inconvenience to any person or the public.
9. The contractor shall take all the measures on the site of the work to protect the public from accidents & shall be bound to bear the expenses of defense of every suit, action or other proceedings at law that may be brought by any person for injury sustained owing o neglect of the above precaution & to pay any such persons or which may with the consent of the contractor, be paid to compromise any claim by any such person.

PERSONAL SAFETY EQUIPMENTS

10. All necessary personal safety equipment as considered adequate by the Engineer should be kept available for used of the person employed on the site and maintained in a condition suitable for immediate use, and the Contractor should take adequate steps to ensure proper use of equipment by those concerned.
 - a) Workers employed on mixing asphalt materials, cement and lime mortars shall be provided with protective footwear and protective goggles.
 - b) Those engaged in white washing and mixing or stacking or cement begs or any materials which are injurious to the eyes shall be provided with protective goggles.
 - c) Those engaged in welding works shall be provided with welder's protective eye sights lids.
 - d) When workers are employed in sewers and manholes, which are in use, the Contractor shall ensure that the manhole covers are opened and are ventilated at least for an hour before the workers are allowed to get into manholes so opened shall be cordoned off with suitable railing and provided with warning signals or boards to prevent accident to the public.
 - e) The Contractor shall not employ men below the age of 18 years and women on the work of painting with products containing lead in any form. Wherever men above the age of 18 years are employed on the work of lead painting, the following precaution should be taken:
 - i) No paint containing led or led products shall be used except in the form of paste or ready made paint.
 - ii) Suitable face masks should be supplied for use by the workers when paint is applied in the form of spray or a surface having lead paint dry rubbed and scrapped.
 - iii) Overalls shall be supplied by the Contractor to the workman and adequate facilities shall be provided, to unale the working painters during the execution of work.
11. The safety provisions should be brought to the notice of all concerned by display on a notice board at a prominent place at work spot. The person responsible for compliance of the safety code shall be named therein by the contractor.

SECTION VI

MODEL RULES FOR THE PROTECTION OF HEALTH AND SANITARY ARRANGEMENTS FOR WORKERS

DEFINITION

- 1.a) 'Work Place' means a place at which, at an average 50 workers are employed in connection with construction work.

FIRST AID

- 2.(a) At every work place, they shall be maintained in readily accessible place first aid appliance including an adequate supply of sterilized dressings and sterilized cotton wool. The appliance shall be kept in good order and in large work place they shall be placed under the charge of a responsible person who shall be readily available during working hours.

DRINKING WATER

- 3.a) In every work place, there shall be provided and maintained at suitable places easily accessible to labor sufficient supply of cold water fit for drinking.
- b) Where drinking water is obtained from an intermittent public water supply, each work place shall be provided with storage where such drinking water shall be stored.
- c) Every water supply of storage shall be at a distance of not less than 15 m, from any latrine, drain or other source of pollution. Where water has to be drawn from an existing well which is within the proximity of latrine, drain or any other source of pollution, the well shall be properly chlorinated before water is drawn from it for drinking. All such wells shall be entirely closed in and be provided with a trap door which shall be dust and water proof.

SECTION - VII

PREAMBLE TO BILL OF QUANTITIES

RATES TO INCLUDE:

Rates quoted shall be for the items completed in all respect at all floors/heights/levels including all taxes, octroi and the cost of all materials, fittings, fixtures, all labor and for all the operations as detailed in the specifications and contract conditions. Apart from other factors mentioned in the specifications and contract conditions, rates quoted for the items in this schedule shall also include the following:

1. GENERAL:

- a. Whether mentioned or not in the Bill of Quantities, all works are to be carried out as per the drawings, designs, catalogues and or instructions of the Architects/Bank. extra shall be paid over the quoted rates for not understanding the designs etc. before hand.
- b. Sample of all works/items shall be got approved from the Architects/Bank before taking the mass production in hand and nothing shall be paid for the cost of samples.
- c. Any incidental work required to complete the item and not specifically covered in the item as mentioned in Bill of Quantities shall be completed at no extra cost.
- d. Unless otherwise specified all exposed surfaces of wood/wooden moldings and plywood of loose furniture/items tops shall be finished in at least two coats of melamine polish, including staining to match the shades of laminates etc.
- e. All laminates for furniture items shall be 1.0 mm thick for vertical & 1.5 mm for hoz. Spaces, in Satin finish, color texture and shade as per the schemes given by the Bank/Architect.
- f. Unless otherwise specified, all inner surfaces, sides and under sides of furniture items, drawers/cabinets shall be polished/Painted flat oil painted as directed by Architects.
- g. All exposed edges of plywood/block boards shall be finished with teak wood lip pings 5 mm thick of profile as per detail and Melamine polished unless otherwise specified and no extra cost shall be paid.
- h. All furniture items shall be delivered at site packed in polythene sheets.

2. WOOD WORKS:

- a. Wherever ply is mentioned it will mean ply wood.
- b. All Board/Ply will be of BWP Commercial Type.

c. All teak wood will mean CP. teak.

3. HARDWARE:

3.1 Necessary handles, tower bolts, ball catchers, stoppers, hinges, brass/GI screws, nails, locks, sliding rails, nut and bolts etc. shall be provided by the Contractor which shall be out of the approved make of these materials annexed in the technical specifications/approved by Architects/Bank.

4. PAINTING AND POLISHING:

4.1 All finishes, shade of colors, texture of fabrics including all surfaces of finishes like POP, painting, lamination, paneling, stitching joints in upholstery, all polishing shall be as per the satisfaction of the Architects/Bank.

4.2 Thoroughly brushing the surface to be finished, free from mortar dropping and other foreign matter including preparing the surface and sand papering to give an even surface.

4.3 For painting and polishing items - on all kinds of wood and wood based surfaces.

4.4 All painting work to be completed with at least one coat of the primer along with two coats of the paint as per the Technical Specification, Manufacturer's specification and to the satisfaction of the Architects/Bank.

4.5 All the polishing works to be completed with at least two coats of the polish of the approved make as per the list of approved manufacturers and to the full satisfaction of the Architects/Bank.

5. GLASS WORKS:

5.1 The edges of glass tops for tables wherever shown shall be beveled as per approval of the Architects.

6. PARTITIONS AND PANELLING

a. Quoted rate shall include labor/materials required to fix the sub-frame to the wall with MS flats ('L' / 'U') shape clamp with adequate screws and repairing the portion damaged while putting the gut ties. etc. and making good the same.

b. Quoted rate shall be inclusive of making provisions for electrical conduits and switch boxes and time required while coordinating with other Contractors for the final finishing of the work.

c. The partition frame work shall be provided up to the RCC slabs at top but measurement for payment shall be of partition up to false ceiling and frame /support of partition above false ceiling shall be carried out within the quoted rate for which no extra shall be paid.

d. All work/materials will be as per good engineering practice.

e. Wherever glass is mentioned it will be clear float glass.

SECTION - VIII
SPECIFICATIONS

1. GENERAL:

1.1 This section of the specifications covers all general civil work is any, for which no separate detailed specifications have been included.

1.2 All these works shall be done in accordance with the drawings and instructions for the Engineer-in-charge. Unless otherwise so specifically mentioned, the latest CPWD Specifications (New Delhi) for the particular item of work shall be followed. In case of any dispute regarding the intent of the specifications, the Engineer's decision shall be final.

All work shall be done as per approved drawings, specifications, site instructions and with specified materials/makes as approved. In case the Contractor desires to substitute an approved/specified material/make with an alternative one he must get specific approval of the same before its use in

the work. Failure to do so will make the work liable to rejection irrespective of the fact that it might not have been detected and rejected earlier.

- 1.3 All finished work must be truly vertical and horizontal or in any other plane as shown and required and true to lines and levels. The Tenderers must inspect the various existing surfaces and areas on which he has work on and take whatever measures necessary to

achieve the above objective and include the cost of the same in his rates as no extra will be payable for this purpose.

- 1.4 Samples of all items of work shall be prepared & got approved before proceeding with the work. For partitions complete layout shall be marked on the floor at the site for inspection & checking; only after approval installation shall commence.
- 1.5 Teak wood used anywhere in the work shall be 1st quality Teak wood. If anything to the contrary is mentioned elsewhere in these documents or drawings the above shall prevail & Tenderer shall be deemed to have quoted their rates accordingly.

2. WOOD WORK AND JOINERY:

- 2.1 **PLY WOOD:** Ply wood shall be BWR as per IS-303-1975 Specifications
- 2.2 **BLOCK BOARDS:** Block board shall be as per IS: 1659-1979 BWR grade.
- 2.3 **FLUSH DOORS:** 2202 Pt I (1991) Specification for wooden flush door shutter (cellular and hollow core type) ply wood face panels BWR grade.
- 2.3 **LAMINATE:** Laminates where specified shall be of approved brand type, texture and thickness and manufacturer as per IS: 2046-1969. Fixing of laminates shall be done as per best trade practices and strictly as per printed instructions of the manufacturers using phenol Formaldehyde Synthetic Resin adhesive of approved make. Unless otherwise indicated laminated shall be 1.0 & 1.5 mm thick of approved make.
- 2.4 **JOINERY:** All details shall conform to the drawings, but all measurements shall be checked at site. The scantlings shall be accurately planned and finished smooth to hold full dimensions shown in the drawings after finishing and rebates, rounding and moldings made before they are framed. No patching or plugging of any kind shall be prepared and got approved by the Engineer before proceeding with bulk manufacture.

3. IRONMONGERY:

- 3.1 This section shall cover all finish hardware, latches, locks and other fittings and fixtures etc., used in wood doors. All finish hardware shall be well made, reasonably smooth, and free sharp edges and corners flaws and other defects and shall be as per relevant Indian Standard Code. Unless otherwise required all finish hardware shall be polished brass.
- 3.2 All hardware shall be of approved make and shall be specifically got approved by the Engineer before ordering. No fittings and fixtures shall be fixed before all major work is over. While fixing correct handling of fixtures shall be ensured.
- 3.3 All finish hardware shall be fixed by skilled carpenters experienced in this work. Work shall be done as per manufacturer's printed instructions and to the satisfaction of the Engineer.
- 3.4 All hardware fixed to respective locations shall be adequately protected from damage and slashes of mortars and paints by covering suitably with Jute clothes/Black PVC sheet till handing over of the work to the Engineer/Owner to his satisfaction. The finished hardware shall be absolutely clean without any foreign materials and fully showing original finish in its best condition.

ELECTRICAL INSTALLATION WORKS

GENERAL: All provisions of the "General Conditions" and "Supplementary General Conditions" shall form a part of this section.

WORKS INCLUDED IN THIS SECTION

MATERIALS: All materials to be used in this work be new and bear the Architects/ Bank approval.

LOCATION: The drawings indicate diagrammatically various outlets and equipments. In the event of things in the indicated locations of equipment or fixture being necessary due to developed

conditions in the building construction or rearrangement of furnishing, such changes shall be made without any extra cost by the contractor.

PAINTING AND MARKING: All exposed steel work not actually embedded in building construction (viz. Conduits, junction boxes, switch boards etc.) will be painted to match the existing shades of walls as instructed. This work will be done by the contractor without any extra charge.

SECTION IX

LIST OF INDIAN STANDARDS REFERRED TO :

S.No.	I.S.Codes	SPECIFICATIONS
1.	I.S.No.1200	Latest measurements of building & civil engineering works, methods of.
2.	I.S. No. 2202(Part I)-1973	Specification for Wooden Flush Door Shutters (Solid Core type Part I- plywood panels)
3.	I.S. No.710 & 303-1975	Specifications for Plywood for general purposes
4.	I.S. No. 1659-1979	Block Boards
5.	IS: 2046-1969.	Laminates
6.	I.S. No. 848-1974	Specification for Synthetic resin adhesive for plywood (phenol & Amino plastic)
7.	I.S. No. 133-1975	Specification for Enamel, Interior (a) under coating (b) Finishing.
8.	I.S. No. 8756-1978	Ball Catchers
9.	I.S. No. 3564-1975	Door Closer (hydraulically regulated)
10.	I.S. No. 799-1979	Drawer Locks

LIST OF APPROVED MAKE OF ACCEPTABLE MATERIALS

S.No.	Particulars	Specifications
1.	Block Boards/Ply/Flush Doors	Green Ply , Duro, Mayur, Archid, as per consultant's prior approval.
2.	Synthetic Enamel paint	Asian, Shalimar, Nerolac
3.	Locks	Godrej, Acme, Yale India Ltd, Golden Industries Ltd.
4.	Brass/ powder coated Hardware fittings.	Palladium, Earl behari or equivalent.
5.	Glass (Plain / Float)	Modi Guard, Triveni, Saint Govin.
6.	Hardware fittings	Eve rite, EBCO .
7.	Glue / Adhesives	Fevicol.
8.	M.S. Screws	Nettle Fold, GKW
9.	Laminates	As Per Bank Specifications (Archidlam, Century, Greenlam and as per Bank Specifications)
10.	Gyp Board for False Ceiling	M/s India Gypsum Ltd. or as per consultant's prior approval
11.	Door Closers	M/s Everite, M/s Kelwyn or as per consultant's prior approval
12.	Floor Springs for Glass Doors	M/s Doorma or as per consultant's prior approval
13.	Surface Paint	ICI, Asian, Berger

Note: The Contractor shall get the samples of all the items covered in this list for the clients for approval before commencing the supply.

1. No Deviation permissible. Wherever Contractor proposes to use "equivalent" makes (i.e. Other than specified) the same shall be done only after prior approval from the Employer/Architect.
2. All material to be used shall be of first quality unless otherwise specified.

LIST OF DRAWINGS ATTACHED ARE REFERENCE DRAWINGS FOR RATE PURPOSE AND CAN BE CHANGED AS PER THE SITE REQUIREMENTS AND CONDITION)

**BOQ OF AIR CONDITIONING SYSTEMS – PUNJAB AND SIND BANK, BRANCH
AND ATM- SHAHDOL (M.P.)**

S. No.	Item and Specification	Qty.	Unit	Rate	Amount
1	<p>Indoor Cassette AC unit – 3.0 TONNE (ceiling mounted 4 way- 5 STAR RATING):- Supply installation testing and commissioning of 4 way round flow ceiling suspended/mounted cassette type unit with BEE Energy Efficient label machines) should be installed with timer control operation in order to avail continuous comfort cooling and maintain the rated temperature of branch area. Separate MCB's control to be made / arranged for the Air conditioners and not to connect with Lighting Load.(Make/Brand: Voltas/Blue star/ Hitachi/ Carrier) comprising of copper evaporator, electronic expansion valve, blower, motor, filter pad, auto air swing louvers, temperature & on/off display with inbuilt drain pump & decorative panels including internal wiring, controls. Dimension in terms of length & width should not be more than 950mmX 950mm with wireless remote controller. (Single phase/three phase) (Banking hall)</p>	2	No's		
2	<p>SPLIT AIR CONDITIONERS (5 STAR RATING)- Supplying, erection, testing and commissioning 5 Star – 1.00 Tonne , wall mounted Split unit s of (Daikin/Bluestar/Voltas/Carrier) with cordless remote complete with all necessary fittings duly insulated with 9 mm thick nitrile rubber pipe insulation with (evaporator coil – copper only), fan and fan motor, machine control panel improved Refrigerant Joints, .Air conditioners shall be fitted with hermetically sealed type suction cooled reciprocating or discharge cooled rotary compressor or scroll compressor. Compressor unit operating on R-22/ R-410. All complete as per drawing, approval and instructions of the Employer (Rates to be inclusive of Copper refrigerant pipe with insulation and Drain pipe up to 10 Mtr. Length). connected with steel cage for</p>				

	AC outdoor fan unit by ¼ mm & ½ mm copper pipe, from the AC system to the out skirt the premises including all labour & required material, of branded company with complete warranty make approved by bank complete in all manner(B.M. Cabin- 1 and ATM-1)	2	No's		
			A	Total	
3	Supplying and laying of Extra copper refrigerant piping with nitrile rubber pipe insulation, both of size as specified by the manufacturer suitable for 1.0 TR/ 1.5/2.0 TR Split type AC and 2.0/3.0 TR Cassette AC (From Indoor to outdoor Units) Beyond 10 M.				
3.1	For 3.0 T Split unit (Branch) – from main unit to out door unit.	71	R.mtr.		
4	Suitable IS/BIS standard Cable of 1.1-2.2 KV, Multi strand, FRLS 2- 4 C / 1.5/2.5 -6.0 Sqmm) as per design requirement of Peak load calculation of specific ACs system installed at site with 1”/1/2”/2” PVC conduit pipe between indoor/outdoor unit				
4.1	Supplying and laying of Extra Electrical interconnecting control cable from indoor to outdoor of size as specified by the manufacturer suitable for 1.0 TR/ 1.5/2.0 TR Split type AC.	89	R.mtr		
5	AUTOMATIC VOLTAGE CONTROLLER- Stabilizer shall be Automatic version with copper coil transformer and the voltage selection range shall be minimum depending on lowest peak recorded average in a month. Precise output voltage range (130V-170V to 240V -270 V). Ensure the rating of Stabilizer shall be in accordance with max rated power of ACs considering instantaneous peak load fluctuation. Providing and fixing 5 KVA Stabilizer with 3-4 step relay and input voltage range of 130-270 V and output to be 230-240 V (Blue bird/ Logic state/ Inline/ V-Gaurd/Equivalent Reputed Make) (copper winding).	2	No's		
6	MS-STAND (POWDER COATED) - Providing and fixing of lockable caging for				

	<p>outdoor unit grouted on wall or on roof with open able shutter made of 10 X 10 mm MS square bars placed vertically @ 5" c/c welded with 40 X 3 mm MS flat all- round. The frame shall be of angle 35mm*35mm and it shall be fixed to wall or roof with proper MS bracket to tackle the weight of outdoor unit. Item includes all necessary hardware, priming coat, synthetic enamel paint, hanger, clamps other accessories etc. All complete as per approval and instructions of the employer. Size shall be adequate for AC outdoor size & sufficient space around the outdoor suitable for servicing purpose for Outdoor unit.</p>	4	No's		
			B		
			A+B	TOTAL	-

Note:- All rates are excluding GST.

**BOQ FOR ELECTRICAL WORKS OF PUNJAB AND SIND BANK, BRANCH AND ATM-
SHAHDOL (M.P.)**

	<u>ELECTRIC WORK</u>				
	<u>SUB HEAD : 01 : INTERNAL WIRING</u>				
1	<p>POINT WIRING : The rates for the point wiring shall include providing and fixing of following :</p> <ul style="list-style-type: none"> a. Wiring of the point of any length from distribution board to point outlet including m.s. conduit with 1.5 sqmm Standard copper conductor PVC insulated. b. Earthing of all switch box and all outlet boxes fitting. 3rd Pin plug with 1.60mm *16 gauge) copper wire. c. Modular switch / sockets of Standard make with necessary modular series cover plate and MS Boxes d. Embedding all conduits in walls, laying in slabs, false ceiling or in floors including all accessories cutting and refilling the chase with cement mortar. e. This includes sub main wiring. f. Providing, fixing, switches, sockets, M.S. boxes (1.6mm thick) draw boxes, G.I. Pull wires (where required). brass screws, ceiling rose / connector etc. g. Adopting separate and independent system of wiring for lighting, power (normal and essential supply). Wiring for following points using PVC insulated copper conductor wires of 850V/1100 V grade in 16 SWG M.S. conduit concealed/ exposed including switches & sockets as above. h. Providing wiring (supply, fixing testing & commissioning etc.) for light point / fan point/ exhaust fan point / call bell point etc. with 1.5 sqmm copper conductor PVC insulate in recessed / surface 16 swg stove 				

	<p>enameled steel conduit, with accessories, modular switches ceiling rose, bulb holders etc. fitted in standard concealed sheet steel boxes including 1.5 Sqmm PV insulated copper earth wire etc. complete as required (Wire colors red, black, green) (This Item specially used for light point. fan point. Exhaust point etc)</p> <p>1.1. Providing and fixing one light point controlled by one switch including fan point with stepped regulator.</p>	62	Nos.		
1.2	Providing and fixing one fan point with stepped regulator etc.	2	No's		
2	Supply, fixing, testing & commissioning of 2 sets of 3 pin PIN 6 Amp. socket with switch (modular type) on separate board fitted in concealed sheet steel boxes with 1.5sqm PVC insulated Copper wire (For UPS output)	7	Nos		
3(a)	Supply & fixing of 32 Amp Metal socket with 32 Amp SPMCB with 4.0 sqmm PVC insulated copper wire for individual AC point all labors, materials etc. complete.	4	No's		
3(b)	Providing, supplying and installation the concealed 25mm dia Drain pipe from AC unit inside to branch to the outdoor of premises as instructions by Architect – Make Finolax of drain pipe etc.	58	R.mtr.		
	<u>SUBHEAD II. MAINS & DISTRIBUTION SYSTEM</u>				
4	<p><u>U.P.S. DISTRIBUTION BOARD FOR OUTGOING SUPPLY</u></p> <p>Supply, Installation, Testing and commissioning of the surface / recess mounting following way Double door MCB D.B. Single phase distribution board (Consumer unit) for single phase out going with IP 422 protection incl. The followings accessories –</p> <p>a) 1 No. SPN MCB DB 12 way b) 1 No. 25 amp DP MCB c) 10 Nos. SP MCB 6 amp.</p>				

	Including Electrical connection, earthing, making good all the damages, painting, cleaning the site, etc. complete as per site requirement and as directed.	1	No		
5	Supply & fixing 40 A TPN MCB with enclosure for UPS Incomer	1	No.		
6	<u>DISTRIBUTION BOARD & MAIN BOARD</u> a) Supplying, fixing in position, testing and commissioning of following type of 1.6mm thick sheet steel enclosed wall mounted dust and vermin proof, factory fabricated from b) MCB manufacturers indoor type distribution board with hinged cover (double door) with locking arrangement with copper phase bus, neutral and earth bars complete as required suitable for use at 3 phase 440 V/single phase 250V 50c/s supply.				
	INCOMER				
6.1	1 Nos. MCCB 100 Amp. 100 A TPN insulated Aluminum Bus Bar 1 Set+100A TPN A1 bus bar no on load c/ SW 100A 2 Nos. MCB 63A(TPN) 2 No. MCB 40A (TPN)	1	No		
6.2	LDB (4x4 TPDB – double door) I/C 63 A() O/G SP-7 Nos. 10 A, SP-5 Nos-32 A SET AS ABOVE	1	No.		
7	POWER CABLE Supply, laying, testing and commissioning of the following 110 Volt grade L.T. A1 Conductor armored cable inner and outer sheathed along with the two ton of G.I. Earth wire etc. i/c termination at both ends. (This item specially used for UPS to ATM and main panel to UPS.) A. under ground The excavation of trench shall be of size 30 cm (w) x 85 cm (d) in all type of soil / murum / rock/ concrete / etc. And laying cable on a bedding of minimum 7.5 cm riddled soil or				

	sand at the bottom of the trench and covering it with additional riddled soil or sand of minimum 7.5 cm and protecting it by means of tiles / second class brick (.... nos in one meter) or slabs Back filling.				
	B. On surface S/Fixing the cable on wall / column / beam / ceiling/ above false ceiling / existing trench etc. incl. S/f of saddles/ spacers (wherever required as per site conditions) and two run of G.I. Earth wire along with the cable, making good all the damages, i/c termination at both ends.				
7.1	a) 3.5C x 16 sqmm (with 08 SWG G.I. Wire)	70	m		
7.2	b) 3.5C x 25 sqmm (with 08 SWG G.I. Wire)	64	m		
7.3	c) 3.5C x 10 sqmm (with 08 SWG G.I. Wire)	59	m		
	a) Suitable for 15 -20 kilowatt loaded branch Electricity Board to main meter box. Main meter Box to main panel. b) suitable for 25 kilowatt to 30 kilowatt loaded branch c) suitable for ATM to main panel connection				
8	<u>EARTHING (Branch)</u>				
	CHEMICAL EARTH STATION (One for branch electrical work & One for UPS system):- Installation, Testing , commissioning of CHEMICAL EARTH STATION Based on Earthing Electrode with inbuilt copper strip/GEL/GAF based. Should have resistance < 1 Ohm and should be < 2V between neutral and earth. Suitable electrode be used as per the site requirements. Earth enhanced compound powder (Gel) with hardener to be provided minimum 20Kg per site/ Back Fill/Site Filled compound (BFC/BSC)- 100 Kg. Earthing Warranty for 5 years. The electrode should be minimum 60mm dia and 3 Meter length.or 80mm dia and 2 Meter length. Dedicated earthing for computer systems, with all respect as per your required specification.				

8.1	Included to above item - Construction of earth pit chamber incl. Necessary brickwork, concrete, plastering S/F of CI cover of size 12" x 12" complete as per drawing (enclosed herewith)- Providing and fixing 2 X 8 SWG dia. Cu earth wire in PVC conduit on surface or in recess for loop earthing along with the existing surface/ recess cable as required. Supplying and laying 25 x 3mm copper strip direct on wall / in ground with screws and washer including soldering / welding com.	2	No		
9	<u>SUB HEAD 03 : TELEPHONE SYSTEM</u> Supplying lying / fixing of the following rigid PVC non metallic conduit 1.6 mm wall thickness of approved make on surface (wall/column/beam/ceiling etc.)/ in concealed manner i/c with all m.s. accessories like bends tees, junction boxes etc. including necessary breaking and cementing the flow if required, completed as required Supplying, drawing, testing and commissioning of 0.61 mm dia Telephone cable tinned copper conductor, P.V.C. insulated and sheathed, fire retarding, anti termite, color-code twisted Paris and rip cord in existing pipe/trench/tray/ beam/column/floor etc. with all necessary materials i/c connect connections, identification by numbering.				
9.1	Supply and fixing of modular type Telephone Outlets (RJ – 11) with suitable size M.S./PVC modular boxes complete as required along with double outlet with shutter.	2	No.		
9.2	Supplying and fixing of crone type telephone tag block, suitable for the multi core telephone cable and shall accommodate tin-plated phosphor bronze connectors, the connectors shall splice buskined cables up to 0.61 mm dia and shall be terminate both inc. incoming and outgoing lines. the tab blocks shall be mounted inside, fabricated 15 swg G.I. Box of suitable size with removable hinged covers and locking arrangement and shall be fully accessible. The item is inclusive of providing and fixing of G.I. box boxes in				

	surface / recessed system etc. as required complete a) 20 pair tag thick.	2	No		
10	SUB HEAD : 05 <u>COMPUTERS NETWORKING</u> a) Wiring for computer networking from Jack Panel in data rack to computer workstation with Cat-6 computer cable in PVC conduits of size 20/ 25 mm including providing ferrules at both ends and termination at both ends including providing & fixing frame for Cat-6 with shutter, RJ 45 outlet, faceplate and mounting box complete of modular type, This work includes supply and laying of CAT-6 cable in PVC conduits throughout the length, from the I/O hub to the point.				
	b) One Port along with supplying, laying/fixing of the following rigid PVC non metallic conduit 1.6mm wall thickness of approved make on surface (wall/ column / beam/ceiling etc.) in concealed manner including all accessories like bends, tees, junction boxes etc. including necessary breaking and cementing the floor if required, complete as required. (10 a+ 10 b)	7	Nos.		
10.1	Supplying and fixing 9 U (Rack with glass door, opening in the front power panel 1 (horizontal), cable manager 1 lock & key).	1	No's		
10.2	Supplying and fixing Patch Cord-2 Meter-(DBPS Mounting Cord)	1	No's		
10.3	Supplying and fixing Patch Cord-1 Meter-	1	No's		
10.4	Supply and fixing of 1.6 mm thick G.I. Box along with RG 6 T.V Co axial socket with Cover Plate.	1	No's		
10.5	Testing of UTP cabling with scanner for all the nodes.	1	Job		
11	SUBHEAD 07: FITTINGS :				
	ELECTRICAL AND LED FITTINGS (BRANCH & ATM)				

11.1	Supply, laying, testing and commissioning of Recessed mounting mirror optics luminaries LED (36 Watt) of Wipro /Philips complete with its electronic driver fittings etc in all manner - size- mm- 2'x2" including fixing & as per all respect etc.	18	Nos		
12.	Supply, fixing, testing and commissioning of 18 Watt round natural white LED down lighter inclusive of enclosed control gear box, matt finish reflector and die cast aluminum ring make of Philips/ Wipro complete in all manner	23	Nos		
13	Supply and fixing of 450 mm dia METAL energy saving wall mounted fan completed in all respect make of Orient / Crompton greaves / Philips including fixing & as per all respect etc.	10	Nos.		
14	Supply and fixing of LED (T-5) 20 W tube 4'-0" make of Crompton greaves / Philips make,	8	No's		
15	Supply and fixing of the 300 mm METAL Blade exhaust fan of Crompton greaves / Philips make, including making hole in the wall for fixing and making up for the civil damages etc. as required. including fixing & as per all respect etc.	3	Nos.

S. No.	Item and Specification	Qty.	Unit	Rate	Amount
1	<p><u>CLERKS COUNTER WITH CASH CABIN (2 No's)</u> Providing and fixing at site front Officer counter 4'-0" in length & 2'-6" in width with provisions of drawer units and one side half height partition as per bank proto type design as per drawings to be made up of 19mm BWP ply make only and finished with 1.0mm laminate with provision of keeping computer in left side with customer top of 12 mm thick glass with round molding front side & with proper provisions of wires/data cabling beneath the table . The drawers are to be provided with heavy telescopic sliding rail. The counter shall have computer sliding Key Board tray to be fixed in it. A glass of 8 mm thick of 15" height with round edge & etched fixing with side & bottom of heavy steel brackets fitted to the counters of customer facing side should be properly fixed as per instructions from the Architect. It should be folding in provisions. The front of the counter shall have different color laminate of metallic steel finish laminate and front design as per drawing to be followed strictly. A CPU trolley is to be provided with castor wheels to be placed below the table. All the another fittings should be CP Brass including hinges also. All exposed edges of counters to be finished with Ist quality teak wood beading /molding to be properly polished with melamine polish, the cost shall include all materials, labour etc. complete. (Glass should be make of Saint Gobin/ Modi float)</p>	2.75	R.mt.		
2	<p><u>CASH COUNTER (1 no's)</u> Providing and fixing at site cash Counter (excluding cash cabin Partition) of size 1525x900x1160(h) with 2 Nos. cash drawers on one side & CPU Trolley on the Left hand</p>				

	side, as per the design to be made up of 19 mm BWP ply make only and finished with 1.0mm laminate of metallic steel finish to the customer side & as per symmetry to the Officers counter as per approved make, with provision of keeping computer in left side, with working/customer top of “post farm laminated top” with approved shade & color.	1.52	R.mt.		
3	<u>CASH SHOW WINDOW</u> Providing and fixing Front Cash show window in 12 mm thick glass with a Cash hole & approved pattern “Etching” over it in Ist class TW frame 63 x 75 mm covered & finished with 1.00 mm thick laminate of approved colour and standard make, to be fixed with help of teak wood beadings, the TW beading, including Rounding off all the exposed edges including melamine polish over all the exposed edges, all materials, labour strictly as per the design & drawing etc. complete. The customer site portion shall consist of provision of 12mm thick plain screening glass of make modi float/saint gobin and provision with fixing 16 guage of deco grill in front top and side top complete in all manners. (Glass should be make of Saint Gobin/ Modi float)	2.32	S.mt.		
4	<u>CUSTOMER WRITING STAND-</u> Providing and fixing size- (4'0" x 1'6" x 3'6"h) in position writing stand made out of 19mm thick block board finished with lmm thick laminate having 12mm thick beveled edge glass upper top of required shape exposed surfaces shall be finished with approved color of melamine It will have a unit at lower level (open at top) made of 19mm block board with 6mm commercial ply back . Below glass top pockets for slips to be provided by providing 8mm thick glass.	1	No.		
5	<u>CHEQUE DROP BOX-</u> P&F in position laminated cheque drop box made of 19mm thick block board with locking arrangement. All internal surfaces to be				

	painted with synthetic enamel paint.	1	No.		
6	<p><u>SUGGESTION BOX:</u></p> <p>P&F in position laminated suggestion drop box made of 19mm thick block board with locking arrangement. All internal surfaces to be painted with synthetic enamel paint.</p>	1	No.		
7	<p><u>CASH CABIN PARTITION</u></p> <p>Providing and fixing at site 2700 (h) cash cabin partition with GI sections Heavy gauge 2"x1" Channel to be fixed with self tapping steel screws to each other, with spacing at 600 to 900 mm c/c. both ways as per the site requirements to be erected as per drawing. The GI sections are to be sandwiched with 8mm thick BWP ply on both sides. The plywood is to be finished with 1.0mm thick laminate of approved colour and make. The partition shall have 8.0 mm thick plain Glass with Etching pattern to be fixed with TW molding of size 40 x 20mm to match the partition. A pattern in different colour laminate and 20mm half round steam Beech wood beading is to be made in the lower panel of the partition on the external face of the partition. Provision is to be made to have different colour skirting 150 mm high as per the design. All other exposed edges sections are to be properly covered with 8mm plywood & 1mm thick laminated finish, all wood members are to be melamine polished with matching colour as per the Laminate including all materials, necessary fittings, labor etc complete strictly as per the drawing. (Note:-The ply, boards, laminates should be make of Green/Century/ Duro & Glass should be make of Saint Gobin/ Modi float)</p>	7.30	S.mt.		
8	<p><u>FULL HEIGHT PARTLY GLAZED PARTITION (UP TO 2450 MM Height):-</u></p> <p>Providing and fixing (910 mm height of lower portion should be wooden frame 600 mm c/c and remaining 1210 mm height of 12 mm thick screening single piece glass of modifloat/ saint gobin make & remaining 300 mm height should be wooden frame 600 mm c/c) fitted with the teak wood frame in proper grooving of</p>				

9	<p>top & bottom. The lower portion should be of teakwood frame work 75 mm thick to be fixed with self tapping steel screws to each other, with spacing at 600 c/c both ways as per the site requirements to be erected as per drawing. The lower and upper portion with 6 mm thick BWP Ply , finished with 1.00 mm thick approved shed of laminate. The teak wood framing should be fine finished and fitted properly to the wall and ceiling the vertical members. The glass should be single border etched as per Architects advice. All the above fittings with required beading for glass fixing should be in proper fitting and with melamine polish. Above all materials, necessary fittings, labour etc complete strictly as per the drawing. B.M. Cabin ,</p> <p><u>(Note:-The ply, boards, laminates should be make of Green/Century/ Duro & Glass should be make of Saint Gobin/ Modi float)</u></p> <p><u>DOOR FOR PARTITIONS</u></p> <p>Providing & fixing at site 35 mm thick flush doors shutters of approved make to be laminated on both faces with 1.0 mm thick metallic steel finished laminate of approved colour & make with 35 x 5mm Teak wood beading on edges of door. The wooden door half height should be fixed with 8 mm thick screening glass of modifloat/ saint gobin make complete with all fittings. The wood door is to be fixed to main frame made up of teak wood frame of section size 75 x 50 mm. The wooden door frame is to be properly fixed to main MS partition frame with 12mm dia bolts. The entire joint between the wood frame & GI frame are to be covered with Steam Beech wooden Architrave of size 75 x 40mm. The Steam Beech wood door frame & exposed wood beadings, architrave is to be finished with melamine polish matching the colour of laminate. The locking arrangement of Godrej make & hinges of SS finished of 125 mm long of S.S. and fitted with both side decorative handles of 300 mm long of S.S. approved make quality by approved by architect. The cost of the door shall include locking arrangement of</p>	14.10	Smt.		
---	---	-------	------	--	--

10	<p>Godrej make fixed to teak wood door frame, nickel plated brass hinges, door closer, mortise locks, door stoppers, handles etc. (3 NO'S) <u>(Note:-The ply, boards, laminates should be make of Green/Century/ Duro & Glass should be make of Saint Gobin/ Modi float)</u></p> <p><u>B.M. CABIN DOORS</u></p> <p>Providing and fixing at site single leaf door of 2135(h) full of 12 mm thick screening single piece glass of modifloat/ saint gobin make fitted with the teak wood finished frame in proper grooving of top, bottom size of 5"x2"and both side frame size of 4"x2". The teak wood framing should be fine finished with the provision of brass hinges, approved type of handles of any standard is make brass/ metallic handles including the godrej locking system. The Hyper make door closer/ floor spring as per required should be provided. The glass should be double border etched with the centre logo of the bank as per Architects advice. All the beading and other fittings if needed should be including all materials, necessary fittings, labour etc complete strictly as per the drawing. <u>(Note:-The ply, boards, laminates should be make of Green/Century/ Duro & Glass should be make of Saint Gobin/ Modi float)</u></p>	5.90	Smt.		
11	<p><u>ENTRANCE DOOR</u></p> <p>Providing and fixing frameless fully glazed 12 mm Thick toughened float glass fixed Over floor spring and opening shall be min 30".with necessary patch fittings (Dorma make) including cutting, making holes, cutouts in the glass of required shape and size to BWR IS 303 date fittings and fixing the fittings in floors, soffits, jams including necessary fixtures, screws, sealant wherever required and SS cover over patch fittings. Rate shall include necessary etching film / LOGO, approved patch fitting locking systems, 1 pair of 4' long S. S.(C Shape) Handles of approved make, floor springs, and any necessary hardware items. Dorma make Top Pivot - PT 24, Top Patch Fittings - PT 20, Bottom Patch fittings - PT 10, Floor Spring should be of BTS 75 V, Corner lock with strike plate and Euro Profile Cylinder - US 10, Handle - TG 9300 EQ - S</p>	1.95	S.mt.		

	25mm dia X 1200mm length) complete as per attached drawings specifications and manual standard under supervision of bank Architect.	6.30	S.mt.		
12	<p><u>GYPSON FALSE CEILING IN HALL</u> <u>(BRANCH AND ATM)</u></p> <p>Providing and fixing gypsum false ceiling in 12.5mm thick Gypboard (POP) plain false ceiling with GI suspended from RCC slab/Beam as approved by Bank/ Architect including G.I. Parameter Channels of size 0.55 mm thick having one flange of 20 mm and another flange of 30mm an web 27mm along with parameter of ceiling, screw fixed to the brick wall/partition with the help of nylon sleeves and screws at 600mm C/C. The suspended G.I. Intermediate channels of size 45 x 0.9 mm thick with two flanges of 15mm each from the soffit at 1200mm C/C with GI cleats and steel expansion fasteners. Ceiling sections of 0.55 mm thick having web of 51.5 mm and two flanges of 26 mm each with lips of 10.5 mm are then fixed to intermediate channel with help of connecting clips and in direction perpendicular to intermediate channel at 457 mm C/C 12.5 mm Tapered edge Gyboard channel at 457 mm C/C in both the directions screwed fixed to the ceiling section with 25 mm dry wall screws at 230mm C/C screw, fixing is done mechanically with drilling machine and suitable attachment. Finally the boards are to be jointed and finished with jointing compound, paper tape and two coats of top coat, suitable for Gypboard (As recommended practice of India Gyp.) For light fittings in cutouts etc. are to be made with a frame of parameter channels of size 20 x 27 x 30 x 0.5mm thick supported suitably. Angle beads, edge bends control joints as recorded to be provided. The quoted rates to include all the above items, ceiling to be painted with minimum two coats of plastic emulsion paint including base preparation etc. complete.</p>	75.00	S.mt.		
13	<p><u>ARMSTRONG FALSE CEILING</u> <u>(BRANCH AND ATM)</u></p>				

	<p>Providing and fixing at site 600x600mm powder coated sections of GI metallic frame “grid ceiling” in recessed edge Mineral fiber board 12.0mm thick of Armstrong make as approved, shall be hanged with metallic anchor Fasteners of minimum 75mm in length and 12.0 mm dia to be properly anchored in ceiling above at 1200 c/c both ways. The false ceiling is to be hanged with heavy type GI wire properly aligned sections. The cost shall also include two coats of Velvet touché or equivalent acrylic emulsion as final finish, including all labour, materials etc. complete.</p>	44.00	S.mt.		
14	<p><u>STORAGE</u></p> <p>(a) Low Height Storage – Providing and fixing at site storage cabinet 3’ High fully covered from all sides and 16” deep including necessary shelves as per the design and specifications with openable shutters made up of 19mm BWP ply. The rear portion is to be closed with 8.0mm ply; the top shall have 19-25mm approved shade Granite single piece stone with front beveled edge. Front of the cabinet is to be finished with 1.0mm thick laminate of 6” wide metallic steel finish border at bottom with approved pattern with different colour laminated finish of approved shade & colour with Proper Teak wood molding, beadings, and different colour laminate as per pattern in shutters and in skirting strictly as per the design, pattern, including all necessary fittings, such as locks, handles. The inside portion is to be properly painted with one coat of wooden primer and two coats of Luster finished synthetic enamel. The cost shall include all materials, labour, accessories etc. complete. (BM cabin & Officer)</p> <p>(b) Full Height Storage – Providing</p>	6.00	S.mt.		

	<p>and fixing at site storage cabinet 7' High fully covered from all sides and 16" deep including necessary shelves as per the design and specifications with openable shutters made up of 19 mm BWP ply. The rear portion is to be closed with 8.0mm ply, Front of the cabinet is to be finished with 1.0mm thick laminate of 6" wide metallic steel finish border at bottom with approved pattern with different colour laminated finish of approved shade & colour with Proper Teak wood molding, beadings, and different colour laminate as per pattern in shutters and in skirting strictly as per the design, pattern, including all necessary fittings, such as locks, handles. The inside portion is to be properly painted with one coat of wooden primer and two coats of Luster finished synthetic enamel. The cost shall include all materials, labour, accessories etc. complete. (Records)</p>	12.20	S.mt.		
15	<p>Providing & fixing at site 4" wide POP cornice molding at the existing ceiling corner all around the main banking hall with all finishing etc.</p>	41.00	R.mt.		
16	<p><u>WALL PANELLING WITH LAMINATED FINISH (Exposed columns at wall side)</u> Providing and fixing at site wall and columns paneling (with flower bed all around at 6'-6" height from floor level) with IInd class teak wood 2"x1.25" battens to be fixed over the wall at every 600 c/c vertically & 600-900c/c horizontally with 8.0mm BWP Grade ply finished with 1.0mm laminate and pattern of different colour metallic steel finish laminate with approved colour and shade. The top portion to be provided with heavy moulding of teak wood etc. with melamine polish. Provision for providing different colored laminated skirting/design as per architects</p>				

	instruction including all materials, labour etc. complete.	22.10	S.mt.		
17	<p><u>NOTICE BOARD</u> Providing & fixing at site notice board of size 6'x3' to be made up of Ist class teak wood frame of size 2"x1" wooded section with 5.0mm plain glass. The Notice board shall have 19.0 soft boards lining at back with approved shade of cloth, and lockable shutter strictly as per the design & drawing etc. complete.</p>	2	No.		
18	<p><u>BRANCH MANAGER'S TABLE WITH SIDE CREDENZA</u> Providing & fixing at site 1800 x 1250 x760 mm (h) Manager's table as per design and drawings and to be made up of 19 mm BWP ply 1 nos. cupboard below it having tea tray, sliding drawer unit (With sliding rails) Provision is to be made for keeping CPU on trolley in inclined position beneath the table. The cost shall include Side credenza of site credenza as per drawings of size- 36" in length & 16" depth & 30" height with openable shutters fixed with bronze made hinges & godrej make locks with fully covered from all sides and 16" deep including necessary shelves as per the design and specifications with openable shutters made up of 19mm BWP ply. The rear portion is to be closed with 8.0mm ply; Front of the cabinet is to be finished with 1.0mm thick laminate of 6" wide metallic steel finish border at bottom with approved pattern with different colour laminated finish of approved shade & colour with Proper Teak wood molding, beadings, and different colour laminate as per pattern in shutters and in skirting strictly as per the design, pattern, including all necessary fittings, such as locks, handles. The inside portion is to be fixed with fevicol properly after one coat of wooden primer. The cost shall include all materials, labour, accessories etc. complete as per the design with front made up of 19 mm BWP ply openable shutters to be finished with 1.0 mm th. laminated finish of approved shade with</p>				

	<p>provision of keeping of computer with sliding keyboard as per design & specifications, all exposed surfaces to be finished with 1.0mm laminated finish and pattern of different colour laminate. The top of the table shall be of 19mm thick BWP ply with & top of “post farm laminated top” with 12.0 mm beveled edge glass to be placed over the top. The cost shall include all accessories such as sliding rails, drawer locks etc. complete. The table is to be made with two different shades of laminate in skirting and design including all materials, labour etc. complete strictly as per the drawing. (Glass should be make of Saint Gobin/ Modi float)</p>	1	Nos.		
19	<p><u>OFFICER TABLES WITH SIDE CREDENZA</u> Providing & fixing at site 1370 x 910 x760 mm (h) Officers’s table as per design and drawings and to be made up of 19 mm BWP ply 1 nos. cupboard below it having tea tray, sliding drawer unit (With sliding rails) Provision is to be made for keeping CPU on trolley in inclined position beneath the table. The cost shall include Side credenza of site credenza as per drawings of size- 36” in length & 16” depth & 30” height with openable shutters fixed with bronze made hinges & godrej make locks with fully covered from all sides and 16” deep including necessary shelves as per the design and specifications with openable shutters made up of 19mm BWP ply. The rear portion is to be closed with 8.0mm ply; Front of the cabinet is to be finished with 1.0mm thick laminate of 6” wide metallic steel finish border at bottom with approved pattern with different colour laminated finish of approved shade & colour with Proper Teak wood molding, beadings, and different colour laminate as per pattern in shutters and in skirting strictly as per the design, pattern, including all necessary fittings, such as locks, handles. The inside portion is to be fixed with fevicol properly after one coat of wooden primer. The cost shall include all materials, labour, accessories</p>				

	<p>etc. complete as per the design with front made up of 19 mm BWP ply openable shutters to be finished with 1.0 mm th. laminated finish of approved shade with provision of keeping of computer with sliding keyboard as per design & specifications, all exposed surfaces to be finished with 1.0mm laminated finish and pattern of different colour laminate. The top of the table shall be of 19mm thick BWP ply with & top of “post farm laminated top” with 12.0 mm beveled edge glass to be placed over the top. The cost shall include all accessories such as sliding rails, drawer locks etc. complete. The table is to be made with two different shades of laminate in skirting and design including all materials, labour etc. complete strictly as per the drawing. (Glass should be make of Saint Gobin/ Modi float)</p>	1	Nos.		
20	<p>FULL HEIGHT WITHOUT GLAZED PARTITION WITH DOOR - (BRANCH TO STRONG ROOM LOBBY) :- FULL HEIGHT WITHOUT GLAZED PARTITION WITH DOOR:-</p> <p>Supplying and erecting Full height partitions (upto max. 2800 mm. high) as per drawing and conforming to the following specifications :</p> <p><u>basic frame work</u> : teak wood frame work sections, treated with two coats of wood preservatives, 75 mm finished at 600 mm horizontal or vertical spacing as per site conditions.</p> <p><u>skin membrane</u> : 6 mm thick BWR grade plywood on each face, with grooves formed as per drawing/instruction.</p> <p><u>finishing</u> : 1.0 mm thick laminate sheet of same or combination shades as per instructions.</p> <p><u>edge moulds</u> : All free top/end surfaces shall have polished teak wood skirting with NC lacquer finish.</p> <p><u>Note:-The ply, boards, laminates should be make of Green/Century/ Duro)</u></p>	24.60	Sq.mtr.		

21	<p><u>HALF HEIGHT PARTITION (Wicket gate location)</u></p> <p><u>(CUBICAL PARTITIONS – up to 1.21 Mtr. height)</u></p> <p>Providing and fixing at site Half Height Partition for loan officers cabins as per the design & drawing of Conventional Furnishing type as provided in the Bank’s Ambience Standardization Manual 75 mm thick consisting of double skin laminated finished partition on teak wood frame provided on both sides with 6mm water proof ply and finished with cedar finished laminate of 1.0 mm thickness, approved colour the top 300 mm height has to be provided with 10 mm thick float glass of approved made with etching and with all exposed edges polished finished.
